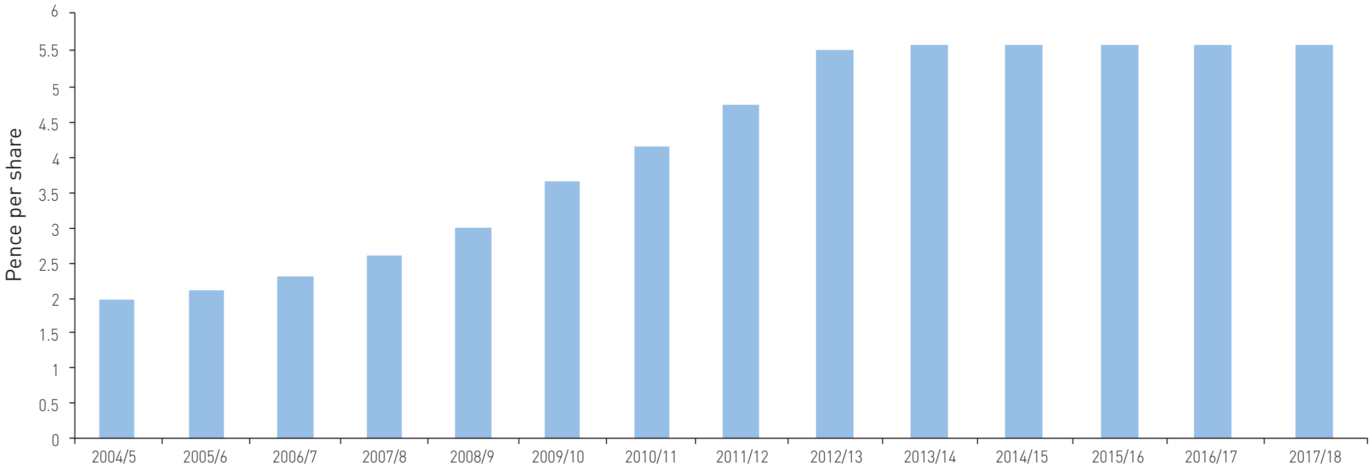
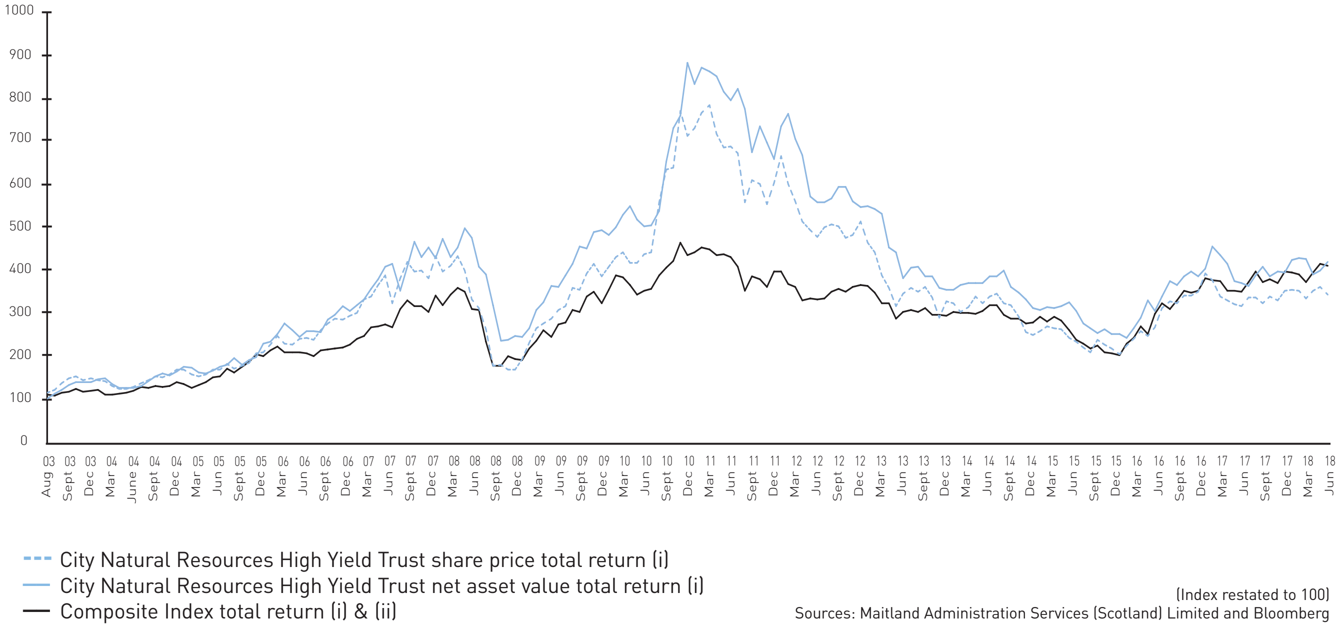
Annual Report
30 June 2018

Dividends Declared in Respect of Each Financial Year



Net Asset Value Total Return and Share Price Total Return v Composite Index Total Return



(Index restated to 100)
Sources: Maitland Administration Services (Scotland) Limited and Bloomberg

(i) Net dividends reinvested.
(ii) Composite index of two-thirds Euromoney Global Mining Index (sterling adjusted) and one-third Credit Suisse High Yield Index (sterling adjusted).

Note: Graph starts at 1 August 2003, this being the date from which the investment objective changed.

Our Objective

To provide shareholders with capital growth and income predominantly from a portfolio of mining and resource equities and of mining, resource and industrial fixed interest securities.

Chairman's Statement

Introduction

I am pleased to be writing to shareholders for the first time since I became Chairman in March 2018. The year to 30 June 2018 saw further progress being made, both in terms of returns for shareholders and in the implementation of the strategic review which was set out in the interim statement.

Since then various factors, largely the confidence knock from the Trump trade war with China, have reversed this trend. The Investment Manager's Review explains this in more detail.

Investment and Share Price Performance and Discount Control

At 30 June 2018 your Company's net asset value stood at 142.4 pence per share, giving a net asset value total return for the year of 12.0 per cent. The benchmark index returned 17.4 per cent.

The Company's ordinary share price total return of 9.9 per cent for the year was less than the net asset value total return, reflecting a widening in the discount at which the Company's shares traded from 17.0 per cent to 19.0 per cent during the period.

As at 22 October 2018, the Company's net asset value is 121.3 pence and the share price is 101.8 pence, with the discount standing at 16.1 per cent.

It remains the Board's aim to mitigate the discount at which the Company's shares trade by good long term performance. Over the long term, since the redirection of the Company in 2003, the net asset value total return is 304.2 per cent, ordinary share price total return 239.3 per cent, and benchmark total return 305.4 per cent.

Income and Dividends and Strategic Review

Income and dividends have been a focus of the Company since 2003. The annual dividends per share are now 2.8 times the amount paid in 2004, and we believe they contribute an important element of stability and investor appeal in our volatile asset class.

Dividends of 5.60 pence have been declared in respect of this year, the same level as those paid last year.

Earnings per share were 3.28 pence over the year to 30 June 2018 (2017: 5.08p).

The Investment Manager has increased the portfolio's allocation to equities as foreseen by this year's strategic review, and has selected equities with an eye to total return and without regard to their yield. As anticipated, the dividend is uncovered for the current year and the Board has used distributable reserves to fund the shortfall. Notwithstanding this use of reserves, the Board believes that an increased allocation to equities as the sector recovers will deliver the best net asset value total return to shareholders at the same time as maintaining the level of dividends they receive.

The Board has announced an annual dividend target of 5.60 pence per share for the next financial year.

The yield on the Company's shares is 5.5 per cent as at 22 October 2018.

Gearing and 3.5% Cumulative Unsecured Loan Stock 2018 ("CULS")

The CULS were repaid on 30th September 2018.

This repayment was partially financed by a new £20 million unsecured revolving credit facility, with Scotia Bank, the term being two years and interest at base rate plus 1.05% per annum.

Net gearing (i.e. the CULS less treasury stocks and cash) was generally maintained in the range of 20 to 25 per cent of shareholders' funds during the year, 25 per cent being the upper limit allowed under the Company's investment policy. This limit was not exceeded in the period. It was reduced towards the period end, partly in anticipation of the repayment of the £34.5m of CULS in issue, and stood at 16.9 per cent at 30 June 2018.

Relative to the CULS, the benefits of the revolving credit facility include flexibility to draw down and repay during the life of the facility according to market conditions and lower fixed costs.

Net gearing currently stands at 10.7 per cent, with £14.0m of the credit facility drawn down.

Board Changes

Carole Cable and Christopher Casey joined the Board on 1 October 2017 and were welcomed by my predecessor when he wrote to you last year. They have both made significant contributions and have swiftly become an integral part of our deliberations and decisions.

Geoff Burns announced his departure from the Company after the publication of the interim results in March this year. Geoff was Chairman of the Company for more than twelve years and I served with him on the Board for eleven of those.

Geoff was an excellent Chairman and provided very sound and strong leadership for the Company, especially during the turbulent years following the 2008 financial crisis. I am sure that all shareholders would like to join me in extending our thanks and best wishes to him.

Outlook

The Company's investment objective and policy are more relevant than ever. It is well positioned to prosper in a world where, in developing countries, the prospect for increased infrastructure spending implicit in growing urbanisation remains undiminished. Renewable power continues to get cheaper and electricity storage more efficient, hastening the pace of an electric vehicle revolution that will benefit some of our core holdings.

The resources sector has seen much solid progress, with increasing evidence that improvements in balance sheet discipline and the reinstatement of dividends are durable features of the new landscape. They are underpinned by better corporate governance structures, while the prospects for the sector are brightened by a prolonged period of inadequate investment which begins to threaten supply shortages. The Investment Manager's Review sets out its investment thoughts and analysis going forward.

Yet, for all the positives, it remains difficult to look beyond President Trump and the policies of the US Administration. The threat of import tariffs becoming a full blown trade war with China and Europe must head the list of concerns, but the strengthening US dollar with its implications for capital intensive emerging markets that are dollar denominated debt should not be overlooked.

The future, however, looks full of opportunity, and, with the fundamentals of hte commodity market remaining firm, these are just the conditions that your Company is designed to take advantage of. The Investment Manager has articulated these opportunities, together with the risks, in much more detail in its Review. The Company's structure allows the Manager to take advantage of being able to invest over the medium to long term into a diversified portfolio with the added support of the extensive research capabilities of the CQS group.

I would like to conclude by extending my thanks to all shareholders for their continued support.

Richard Prickett
Chairman
24 October 2018

Investment Manager's Review

The dislocation between macro sentiment and fundamentals

Trade war concerns have provided a headwind for commodities since April, although this remains sentiment driven rather than significantly impacting the real economy. Continued synchronised global growth and commodity supply restraint have latterly been undermined by President Trump, which has weighed on resources and the fund's NAV. Confrontational trade policy announced in April this year, using import tariffs as a mechanism to support domestic industry against cheaper, state subsidised foreign imports has focussed in particular on China's steel and aluminium industries. This approach has raised fears regarding growth for more capital intensive emerging markets and also driven a strengthening US dollar as the currencies of these targeted markets weaken. Yuan weakness especially has added concern on the relative affordability of commodities in China, which remains a high proportion of global commodity demand. These moves were accentuated by reducing global liquidity, especially as the FED rate tightening shrinks US dollar availability, commodity markets have borne the brunt of this three pronged assault, stymying NAV progress.

These effects of Trump policy are reflected by the Fund's NAV path. Progressive performance earlier in the financial period, which saw the NAV rise over 20% by mid-January after US stimulus was announced, slipped back with the NAV ending the year up 7%. Over the year Sterling has cushioned volatility with a 10% appreciation against the US dollar reversing from April to end the year roughly flat. At the time of writing the current US$200bn worth of Chinese goods subjected to tariffs could possibly be increased to US$500bn. Such escalation to proposals by the Trump Administration, have sustained negative momentum with the result that the Fund NAV has declined by 10% since end-June.

Fundamentals remain robust

We think the extent of the selloff is overdone and commodity prices have dislocated from underlying fundamentals, presenting attractive investment opportunities. Though trade friction has impacted global demand growth forecasts since April, it has been marginal and overall growth remains relatively robust with the Chinese economy still expected to expand at or around 6% for the foreseeable future. In the face of Trump policy China's central planners are adjusting levers to achieve growth targets which are benefitting property prices, a useful lead indicator of underlying commodity demand. Set against this, the capital discipline still being displayed by the mining and energy industries and China's continued resolve to improve environmental conditions, will continue to restrain raw material supply and we believe commodity markets will recover. As illustration, demand for copper in China, which accounts for half of global consumption, has grown at 4-5% in the first eight months of 2018 and global demand growth would need to be zero for this market to return to surplus.

There has also been some inconsistency in commodity price moves. For example, copper, nickel iron ore, aluminium and zinc prices have declined between 16% and 33% from their April peaks whereas benchmark coal and Brent crude prices have remained little changed. Prices of strategic rare earth metals, production of which is dominated by China, have also been remarkably stable over this time frame. Similarly commodities influenced by physical rather than financial buying such as steel in China have also remained well supported, though we expect more pronounced summer demand from regional emission controls to have provided some benefit here. Overall, however, we believe the sharp declines of some commodities, notably zinc and copper, are overdone and with warehouse inventories significantly reduced present opportunity.

Changes to the Fund

Changes to the Fund's investment mandate are helpful in providing flexibility to invest for the capital growth opportunities that we believe the market fundamentals support. It is also important to note that the Company is in a comfortable position having refinanced its loan arrangements this year.

As at 30 September 2018 the total assets under management were £99.2m

Top 10 positions and commodity exposure

Arch Coal	3.0	Coal
BW LPG	2.7	Gas Shipping
Independence Group	2.7	Nickel

Position weight as at 30/09/18

Against the fundamentally robust backdrop we outline some of the important themes which are also shaping the portfolio.

Key Investment themes

- Capital discipline from the industry limiting new production, supporting prices
- China's environmental policy is curtailing production, benefitting zinc
- Shale oil growth will cap the oil price longer term – but still opportunities
- Precious metals unloved but still attractive as a diversifier – attractively valued
- The transition to a low carbon economy benefits battery metals and copper
- Uranium market fundamentals improving

Capital discipline – the supply side remains disciplined

We remain highly encouraged by the continued capital discipline from the mining and energy sectors as a whole, as evidenced by large mining conglomerates such as Rio Tinto and BHP, with the latter approaching zero net debt by mid-2019 following the sale of their US shale assets to BP. The resultant lack of growth investment across the industry over the last 5 years is tightening commodity markets and given a resilient demand backdrop remains supportive for the sector. Resource companies do ultimately need to replace their reserves, but the current dearth of exploration spending will limit new supply and M&A may offer an appealing means of replenishing growth. This was illustrated by the funds position in Nevsun that was bid for by Lundin and Zijin and Rio Tinto's stated interest in acquiring copper assets.

China's environmental policy benefits zinc – a key theme in the fund

China's environmental focus continues to limit supply. While China's Blue Sky Policy has widespread appeal and has helped support high quality coal and iron ore price premiums we believe China's environmental focus on pollution will continue to benefit metals such as zinc which currently represents approximately 12% of net fund assets. We believe the zinc market remains in deficit with declines in global mined zinc production estimated of 2% year-on-year to end-July led by China, which was previously self-sufficient in zinc production. We believe this market has over reacted to the prospect of some new production commencing in 2019 and with warehouse inventories having reduced to less than 10 days usage we believe this market will recover. Given the extent of price moves and heightened fear of escalating trade tensions ahead of US mid-term elections this autumn, the Fund has added to conviction positions, such as zinc producer Trevali, during the recent sector sell-off. The chart below highlights how the zinc market remains tight as warehouse inventories continue to decline despite recent mine additions and trade war fears. Zinc remains a key theme in the fund.

Zinc price in green($/t) & Zinc stocks in LME and Shanghai warehouses (t)

Crude prices are relatively resilient

In our view the outlook for crude oil markets faces challenges from rising output as OPEC/nOPEC unwind 1 Million barrels oil per day quota restrictions and US exports increase as 4 Million barrels oil per day of new pipeline and port capacity starts to be delivered from H2 2019. Despite trade concerns which have weighed heavily on other commodities and prospective supply growth, crude prices have been relatively resilient and investors appear to be ascribing a premium for OPEC's market backing, to buffer against potential downside demand risk. Fund exposure to crude has been via Hurricane Energy and Jacktel while LPG and crude shippers offer the potential to benefit from rising trade of cheap gas produced as a by-product of US output growth. Despite some caution on the broader crude market the Fund participated in the 7.5% convertible issued by North Sea developer, Hurricane Energy, which has made a solid contribution to performance.

Precious metals ignored despite uncertainty

In the context of rising risk aversion and the dislocation in emerging market performance, the lack of interest in gold has been surprising. Insurance demand against risks posed by Trump policy (both sanctions and tariff escalation) and possible contagion from Turkey's currency crisis appears to have been conspicuously absent with the gold price and equities ending the year little changed. Indeed a 10% rise in the gold prices to April has since unwound, mirroring trends of other industrial commodities while the performance of precious metals equities, which had shown some stability, has belatedly worsened slipping 20% since June. Despite the current lack of interest it remains a useful diversifier, particularly against a possible correction of highly rated US equity markets with which gold has shown strong inverse correlation since April, suggesting US investors have reallocated into equities.

Battery metals and copper to benefit from the low carbon economy transition

With regards the electric vehicle theme, Fund exposure has tended towards hidden value offered by projects such as the Australian Wingellina nickel-cobalt project, owned by copper miner Metals X, rather than alternatives located in the more risky DRC or via much hyped recent issues. Both nickel and cobalt lend themselves more readily to technology used in hybrid vehicles that we believe will benefit most from the move away from fossil fuels though the Fund has also successfully invested in some lithium developments. Importantly, power generation capacity may well be a bottleneck to achieving EV market penetration rates with electrification also sustaining copper demand.

Uranium market fundamentals improving

Illustrating to the capital discipline, environmental and low carbon themes we note the improving conditions in the uranium market have also led the Fund to add to its Nexgen position. Against a background of stable Asian-led demand growth, uranium market fundamentals have improved markedly following substantial regional production curbs by dominant producer Kazakhstan, which even after recent production cuts still has a near 35% share of the market, and Canadian producer Cameco. With strong demand growth led by Chinese reactor build out and improving trend of Japanese reactor restarts, the depressed market has moved into deficit. With the uranium price down 85% from its peak we believe the sector offers plenty of scope for improvement. Given extreme regional concentration of uranium production and enrichment capacity the market is also vulnerable to disruption, such as from potential US security policy as the Trump Administration assesses the adequacy of domestic supply, which could materially benefit prices.

Other fund positioning

The Fund significantly reduced its position in Norilsk Nickel late in 2017, after US sanctions were imposed against Russian oligarchs, and subsequently exited its entire position in the high yielding stock. The holding of Central Asia Metals was also substantially reduced in the March quarter following useful performance but also due to it overly increasing exposure to zinc following an acquisition made by the group. Proceeds were reinvested into companies such as copper producer MetalsX while as stated exposure to Trevali has latterly been increased. Elsewhere investment in US-based Arch coal, which benefits from healthy pricing for its exported metallurgical coal, continues to return cash to investors and remains a stable holding.

Strategic Review

Introduction

This review is part of the Strategic Report being presented by the Company under guidelines for UK-listed Companies' Annual Reports in accordance with The Companies Act 2006, and is designed to provide information primarily about the Company's business and results for the year ended 30 June 2018. It should be read in conjunction with the Chairman's Statement on pages 3 and 4 and the Investment Manager's Review on pages 5 and 6, which give a detailed review of the investment activities for the year and look to the future.

Business Model

The business model of the Company is described below.

Investment Policy

The Company invests predominantly in mining and resource equities and mining, resource and industrial fixed interest securities (including, but not limited to, preference shares, loan stocks and corporate bonds, which may be convertible and/or redeemable). The Company may invest in companies regardless of country, sector or size and the Company's portfolio is constructed without reference to the composition of any stockmarket index or benchmark. Exposure to higher yielding securities may also be obtained by investing in other sectors, including closed-end investment companies and open-ended collective investment schemes.

The Company may, but is not obliged to, invest in derivatives, financial instruments, money market instruments and currencies for the purpose of efficient portfolio management.

The Company may acquire securities that are unquoted at the time of investment but which are about to be, or are immediately convertible at the option of the Company into securities which are, listed or traded on a stock exchange, and may continue to hold securities that cease to be quoted or listed if the Investment Manager considers this appropriate. In addition, the Company may invest up to 10 per cent of its gross assets in other securities that are unlisted or unquoted at the time of investment.

The Company will not invest more than 10 per cent in aggregate of the value of its total assets (measured at the time of investment) in other investment trusts or investment companies which are listed on the Official List except that this restriction does not apply to investments in other investment trusts or investment companies which themselves have published investment policies to invest no more than 15 per cent of their total assets in other investment trusts or investment companies which are listed on the Official List.

The Company may borrow up to 25 per cent of shareholders' funds (measured at the time of drawdown).

The Investment Manager expects that the Company will normally be fully invested. However, during periods in which changes in economic circumstances, market conditions or other factors so warrant, the Company may reduce its exposure to securities and increase its position in cash, money market instruments and derivative instruments in order to seek protection from stockmarket falls.

The Company's performance in meeting its objectives is measured against key performance indicators ('KPIs') as set out on page 13. The primary KPI against which shareholders' returns are measured is a composite benchmark weighted two-thirds to the Euromoney Global Mining Index (sterling adjusted) and one-third to the Credit Suisse High Yield Index (sterling adjusted).

Principal Risks and Uncertainties and Risk Mitigation

Risks are inherent in the investment process, but it is important that their nature and magnitude are understood so that risks, particularly those which the Company does not wish to take, can be identified and either avoided or controlled. The Board has established a detailed framework of the key risks that the business is exposed to, with associated policies and processes devised to mitigate or manage those risks. The principal risks faced by Company are set out below.

Investment and Strategy Risk – The Board is responsible for deciding the investment strategy to fulfil the Company's objectives and monitoring the performance of the Investment Manager. Inappropriate strategy, including country and sector allocation, stock selection and the use of gearing, could lead to poor returns for shareholders. To manage this risk the Board requires the Investment Manager to provide an explanation of significant stock selection decisions and the rationale for the composition of the investment portfolio at each Board meeting, when gearing levels are also reviewed. The Board monitors the spread of investments to ensure that it is adequate to minimise the risk associated with particular countries or factors specific to particular sectors. The Investment Manager also provides the Board and shareholders with monthly factsheets which include an investment commentary.

Market Risk – The Company's assets consist principally of listed equities and fixed interest securities and its greatest risks are in consequence market-related. In addition to ordinary movements in the prices of the Company's investments and the loss that the Company might suffer through holding investments in the face of negative market movements, the Company's investment strategy necessarily amplifies this risk (see Sector Risk below). The Board seeks to mitigate this risk through the processes described in the paragraph above, monitoring the implementation and results of the investment process with the Investment Manager.

Sector Risk – The largest part of the Company's assets consist of equity-related investments in companies, usually mid-and small-cap companies, with a wide range of commodity exposures. The prices of the underlying commodities are often volatile and the companies can be located in countries at risk of political instability and vulnerable to natural disasters. The liquidity in the shares of the companies is often restricted, meaning that it can be difficult to buy or sell volumes of shares at the quoted price. The

Board seeks to mitigate this risk through the processes described in the paragraph above on Investment and Strategy Risk. In addition, the closed-ended structure of the Company is an essential part of the Board's management of this risk, ensuring that parts of the portfolio do not have to be sold to raise liquidity to fund redemptions at short notice.

Financial Risk – The Company's investment activities expose it to a variety of financial risks that include market price risk, foreign currency risk, interest rate risk and liquidity and credit risk. Further details of these risks and the ways in which they are managed are disclosed in note 16 of the financial statements.

Earnings and Dividend Risk – Following the strategic review carried out during the year earnings no longer underpin the dividends declared, with the portfolio being managed on a total return basis. Future dividends are expected to be uncovered over the short to medium term and will be funded from distributable reserves as necessary.

Operational Risk – The Company relies upon the services provided by third parties and is reliant on the control systems of the Investment Manager and the Company's other service providers. The security and/or maintenance of, *inter alia*, the Company's assets, dealing and settlement procedures, and accounting records depend on the effective operation of these systems. These are regularly tested and monitored and are reported on at each Board meeting. An internal control report, which includes an assessment of risks, together with the procedures to mitigate such risks, is prepared by Maitland Administration Services Limited, whose systems and processes the UK Administrator relies upon. These are reviewed by the Audit and Risk Committee, as a minimum, once a year. CQS delivers a risk based internal audit plan across the CQS Group which covers different areas of front, middle and infrastructure audits; any areas of concern are discussed with the Audit and Risk Committee when it meets.

Regulatory Risk – The breach of regulatory rules could lead to a suspension of the Company's stock exchange listing or financial penalties. Breach of Sections 1158 to 1159 of the Corporation Tax Act 2010 could lead to the Company being subject to tax on chargeable gains. The Company Secretary monitors the Company's compliance with the Listing Rules of the UK Listing Authority and Sections 1158 to 1159 of the Corporation Tax Act 2010. Compliance with the principal rules is reviewed by the Directors at each Board meeting.

Political risk – Political developments are closely monitored and considered by the Board. The Board has noted the continued uncertainty as to the terms on which the UK will leave the European Union, and also the apparent increase in protectionist threats to world trade. The Board will continue to monitor developments as they occur and assess the potential consequences for the Companys' future activities.

Viability Statement

In accordance with provision C2.2 of the 2016 revision of the UK Corporate Governance Code, the Directors have assessed the viability of the Company over a period longer than the 12 months required by the 'Going Concern' provision (this provision is detailed below). The Board conducted this viability review for a period of three years. The Board considers that this period reflects the long term objectives of the Company whilst taking into account the impact of uncertainties in the markets.

In making this statement the Board carried out a robust assessment of the principal risks facing the Company. These risks and their mitigations are set out on pages 11 and 12. The principal risks identified as most relevant to the assessment of the viability of the Company were those relating to potential under-performance of the portfolio and its effect on the ability to pay dividends.

When considering the risk of under-performance, the Board carried out a series of stress tests including the effects of any substantial future falls in investment value on the ability to re-pay and re-negotiate borrowings, potential breaches of loan covenants and the maintenance of dividend payments.

The Board also considered the impact of potential regulatory change and the controls in place surrounding significant third party providers, including the Investment Manager.

The Board also noted the liquidity risk in the portfolio where the percentage of Level 1 listed investments held at the year end was 82.1%.

Based on the Company's processes for monitoring revenue and costs and the Investment Manager's compliance with the investment objective and policies, the Directors have concluded that there is a reasonable expectation that the Company will be able to continue in operation and meets its liabilities as they fall due for a period of three years from the date of approval of this Report.

Going Concern

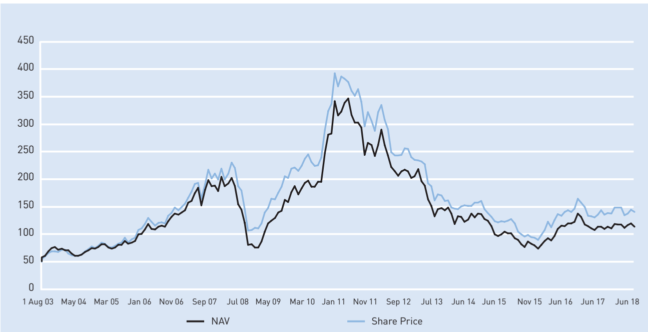
Since 2004, shareholders have been given the opportunity to vote on an Ordinary Resolution to continue the Company as an investment trust at each Annual General Meeting of the Company. Such a resolution has been proposed as Resolution 11 within the notice of Annual General Meeting on pages 49 and 50. If the resolution is not passed, the Board will put forward proposals to liquidate, open-end or otherwise reconstruct the Company. After making enquiries, and having considered the Company's investment objective, nature of the investment portfolio and expenditure projections, the Directors consider that the Company has adequate resources to continue in operational existence for the foreseeable future. For this reason, and in light of the Company's strong long term investment record, the Directors are satisfied that it is appropriate to adopt the going concern basis in preparing the accounts, notwithstanding that the Company is subject to an annual continuation vote as described above.

Performance Measurement and Key Performance Indicators

The Board uses a number of performance measures to assess the Company's success in meeting its objectives. The key performance indicators are as follows:

- **Performance measured against the benchmark, relevant indices and peers**
  The Board reviews and compares, at each meeting, the performance of the portfolio as well as the net asset value and share price for the Company and its benchmark, relevant indices and peers. (see inside front cover)
- **Discount/premium to net asset value ('NAV')**
  At each Board meeting, the Board monitors the level of the Company's discount/premium to NAV. The Company publishes a NAV per share figure on a daily basis, through the official newswire of the London Stock Exchange.

City Natural Resources High Yield Trust plc, NAV vs Share Price, GBP



- **Dividends per share**
  The Board currently intends to at least maintain the level of dividend paid by the Company in respect of subsequent financial years. The continuing ability of the Company to do so is monitored on a quarterly basis.
- **Ongoing charges**
  The ongoing charges are a measure of the total expenses incurred by the Company expressed as a percentage of the average shareholders' funds over the year. The Board regularly reviews the ongoing charges and monitors all Company expenses. There has been no movement in the ongoing charges from prior year of 1.8%.

Social, Community, Employee Responsibilities and Environmental Policy

The Directors recognise that their first duty is to act in the best financial interests of the Company's shareholders and to achieve good financial returns against acceptable levels of risk, in accordance with the objectives of the Company.

In asking the Company's Investment Manager to deliver against these objectives, they have also requested that the Investment Manager take into account the broader social, ethical and environmental issues of companies within the Company's portfolio, acknowledging that companies failing to manage these issues adequately run a long term risk to the sustainability of their businesses.

More specifically, they expect companies to demonstrate ethical conduct, effective management of their stakeholder relationships, responsible management and mitigation of social and environmental impacts, as well as due regard for wider societal issues.

As an investment trust with its current structure the Company has no direct social, community, employee or environmental responsibilities of its own.

The Company has no greenhouse gas emissions to report from its operations for the year ended 30 June 2018 (as per the prior year), nor does it have responsibility for any other emissions producing sources under the Companies Act 2006 (Strategic Report and Directors' Reports) Regulations 2013 (including those within the underlying investment portfolio).

At 30 June 2018 there were three male Directors and two female Directors. The Company has no employees so is not required to report further on gender diversity.

As an investment vehicle the Company does not provide goods or services in the normal course of business and does not have customers. Accordingly, the Directors consider that the Company does not fall within the scope of the Modern Slavery Act 2015 and is not, therefore, obliged to make a slavery and human trafficking statement. In any event, the Company considers its supply chains to be of low risk as its suppliers are typically professional advisers.

In line with the requirements of The Criminal Finances Act 2017, the Directors confirm that the Company has a commitment to zero tolerance towards the criminal facilitation of tax evasion.

By order of the Board
Richard Prickett
Chairman

24 October 2018

Board of Directors and Investment Manager

All of the Directors are non-executive and all are considered by the Board to be independent of the Investment Manager.

The Board fulfils the function of the Audit, Nomination and Management Engagement Committees.

Richard Öther Prickett FCA

Chairman

Length of service: 11 years
appointed a Director on 30 November 2006 and resigned as Chairman of the Audit Committee on 1 October 2016. Appointed Chairman on 24 March 2018.

Experience:
He is a Chartered Accountant and has substantial corporate experience in the mineral sector, having been chairman of Brancote Holdings until its merger with Meridian Gold in 2002. He is currently a director of Landore Resources, an AIM traded mineral exploration company. He is also a non-executive director of The City Pub Group plc.

Committee membership:
Management Engagement Committee
Nomination Committee

Remuneration: £27,000 per annum
(increased from £20,000 on 1 April 2018)

All other public company directorships:
Landore Resources Limited
The City Pub Group Plc

Shared Directorships with any other Trust Directors:
Landore Resources Limited

Shareholding in Company: 65,000 ordinary shares

All other public company directorships:
Eddie Stobart Logistics plc
BlackRock North American Income Trust Plc
TR European Growth Trust Plc
Mobius Investment Trust plc

Shared Directorships with any other Trust Directors: None

Shareholding in Company: None

Investment Manager

On 1 October 2007, NCIM joined the CQS Group, a global diversified asset manager running multiple strategies with, as at 31 August 2018, US$17.5 billion assets under management (including mandates with discretionary management, sub-investment discretionary management, investment advice, collateral management and intermediation), becoming a group company. NCIM's rights and obligations under the investment management agreement between the Company and NCIM were then novated to CQS Cayman Limited Partnership ("CQS"). Consequently, CQS became the Company's Investment Manager but, with the agreement of the Board, has delegated that function to CQS (UK) LLP trading as NCIM.

Ian Francis, Keith Watson and Rob Crayfourd have day-to-day responsibility for managing the Company's portfolio.

Ian Francis joined the NCIM team in 2007. He has over 40 years' investment experience, primarily in the fixed interest and convertible spheres, and his career has included Collins Stewart, West LB Panmure, James Capel and Hoare Govett.

Keith Watson joined the NCIM team in 2013 from Mirabaud Securities where he was a Senior Natural Resource Analyst. Prior to Mirabaud, Keith was Director of Mining Research at Evolution Securities. Previous to this, he was a top-ranked business services analyst at Dresdner Kleinwort Wasserstein, Commerzbank and Credit Suisse/BZW. Keith began his career in 1992 as a portfolio manager and research analyst at Scottish Amicable Investment Managers. Keith has a BSc (Hons) in Applied Physics from Durham University.

Robert Crayfourd joined the NCIM team in 2011. He holds a BSc in Geological Sciences from the University of Leeds and is a CFA holder with over 13 years' experience, having previously worked for the Universities Super Annuation Scheme and HSBC Global Asset Management where he focused on the resource sector.

Alternative Investment Fund Managers Directive (AIFMD)

The Company has appointed CQS (UK) LLP, a subsidiary of CQS, as the Company's alternative investment fund manager ("AIFM"). The AIFM has received its approval from the FCA to act as AIFM of the Company, your Company is therefore fully compliant. An additional requirement of the AIFMD is for the Company to appoint a depositary, which will oversee the custody and cash arrangements and other AIFMD required depositary responsibilities. The Board has appointed HSBC Bank plc to act as the Company's depositary.

As part of the process the Investment Management Agreement was updated and builds in the regulatory requirements arising as a result of the appointment of the AIFM.

Further AIFMD disclosures are shown on pages 52 and 53.

Directors' Report

The Directors present their Annual Report and the audited financial statements for the year ended 30 June 2018.

Results and Dividends

Details of the Company's results and dividends paid are shown on page 2 of this Report.

Principal Activity and Status

The Company is registered as a public limited company in terms of the Companies Act 2006 (number: 02978531). It is an investment company as defined by Section 833 of the Companies Act 2006. It carries on the business of an investment trust and has been approved as such by HM Revenue & Customs.

The Company's shares are eligible for inclusion in a New Individual Savings Account (NISA).

The Company is a member of the Association of Investment Companies ('AIC').

Directors

Biographical details of the Directors, all of whom are non-executive, can be found on pages 14 and 15.

As explained in more detail under Corporate Governance on pages 20 to 21, the Board has agreed that all Directors will retire annually. Mr R O Prickett, Ms C Cable, Mr C M Casey, Mr A G Evans, and Mrs H Green will retire at the Annual General Meeting and, being eligible, offer themselves for re-election.

The Directors believe that each of the Directors brings a significant range of business, financial and management skills and experience to the Company and enable the Board to provide effective strategic leadership and proper guidance of the Company. The Board confirms that, following the annual evaluation process set out in the Corporate Governance Statement on page 20 the performance of each of these Directors continues to be effective and demonstrates commitment to the role. The Board therefore believes that it is in the interests of shareholders that these Directors are re-elected.

Capital Structure

As at 30 June 2018 there were 66,888,111 ordinary shares of 25 pence each in issue. The ordinary shares give shareholders the entitlement to all of the capital growth in the Company's net assets and to all the Company's income that is resolved to be distributed.

Convertible Unsecured Loan Stock 2018

On 26 September 2011 the Company issued £40,000,000 nominal of 3.5% Convertible Unsecured Loan Stock 2018 ('CULS'). As at 30 June 2017, the Company had £34,530,458 nominal of CULS in issue. On 13 October 2017, the Company issued 17 ordinary shares of 25 pence each in connection with the exercise of conversion rights by holders of £65 nominal of the Company's CULS. On 5 April 2018, the Company issued 5,120 ordinary shares of 25 pence each in connection with the exercise of conversion rights by holders of £19,319 nominal of the Company's CULS. As at 30 June 2018 £34,551,074 nominal of the Company's CULS remained in issue.

On 30 September 2018 £34.5m nominal of CULS were repaid. No CULS remain in issue.

Substantial Interests in Share Capital

At 30 September 2018, the only persons known to the Company who, directly or indirectly, were interested in 3 per cent or more of the Company's issued share capital were as follows:

Ordinary shares	Number held	% held
Hargreaves Lansdown	9,679,177	14.5
Alliance Trust Savings	5,543,302	8.3
Armstrong Investments	5,162,166	7.7
Charles Stanley	4,644,275	6.9
AJ Bell	3,953,455	5.9
Interactive Investor	3,242,932	4.9
Investec Wealth & Investment	2,597,559	3.9
Miton Asset Management	2,490,000	3.7
Philip J Milton	2,257,594	3.4
Barclays Smart Investor	2,117,830	3.2

Some of the shareholdings listed above refer to funds managed on behalf of clients of the groups named.

Management and Management Fees

Investment management services to the Company have been delegated to CQS Cayman Limited Partnership, which in turn has delegated the management to CQS (UK) LLP, trading as New City Investment Managers, with Ian Francis, Keith Watson and Rob Crayfourd as the portfolio managers.

The Board keeps under review the appropriateness of the Investment Manager's appointment. In doing so the Management Engagement Committee considers the investment performance of the Company and the capability and resources of the Investment Manager to deliver satisfactory investment performance. It also considers the length of the notice period of the investment management contract and the fees payable to the Investment Manager, together with the standard of the other services provided. The Directors are satisfied with the Investment Manager's ability to deliver satisfactory investment performance, and the quality of other services provided. It is therefore their opinion that the continuing appointment of the Investment

Manager on the terms agreed is in the best interest of shareholders.

Until 3 April 2018 the Company's annual management fee was 1.2 per cent of net assets. Since 3 April the Company's annual management fee has been 1.2 per cent on net assets up to £150m; 1.1 per cent on net assets above £150m and up to £200m; 1.0 per cent on net assets above £200m and up to £250m; and, 0.9 per cent on net assets above £250m.

The administration of the Company has been delegated to Maitland Administration Services (Scotland) Limited ("Maitland"). A summary of the contract between the Company and Maitland is given in note 4 to the financial statements.

Financial Statements

The Directors' responsibilities regarding the financial statements and safeguarding of assets are set out on page 19.

Annual General Meeting

The Notice of the Annual General Meeting is contained on pages 49 and 50.

Directors' Remuneration Policy and Report

Among the resolutions being put to the Annual General Meeting as Ordinary Business, Resolution 2 is to approve the Directors' Remuneration Policy. It is also mandatory for listed companies to put their Directors' Remuneration Report to an advisory shareholder vote, Resolution 3 seeks to approve the Directors' Remuneration Report.

Induction and Training

New Directors appointed to the Board are provided with an induction programme which is tailored to the particular circumstances of the appointee. Directors receive other relevant training as necessary.

Continuation Vote

As set out in the strategic review on page 12, Directors are required to propose an Ordinary Resolution at the forthcoming Annual General Meeting that the Company shall continue in being an investment trust. Accordingly, the Directors are proposing Resolution 11, which will be proposed as an Special Resolution.

Directors' Authority to Allot Shares

The Directors are seeking authority to allot shares. Resolution 13 will, if passed, authorise the Directors to allot new shares up to an aggregate nominal amount of £1,670,540 being 9.99 per cent of the total issued shares as at 24 October 2018.

Resolution 14, which is a Special Resolution, will, if passed, renew the Directors' existing authority to make limited allotments of shares for cash other than according to the statutory pre-emption rights which require all shares issued for cash to be offered first to all existing shareholders up to a maximum nominal amount of £834,434 (being 4.99 per cent of the total of issued shares as at 24 October 2018). Resolution 13 also authorises the sale of treasury shares for cash without offering such shares first to all existing shareholders. These authorities will continue in effect until the conclusion of the Annual General Meeting in 2019. The Directors do not have any immediate plans to issue further ordinary shares in the Company.

Directors' Authority to Buy Back Shares

The Company did not purchase any shares for cancellation during the year.

Resolution 15, as set out in the notice of the Annual General Meeting, seeks renewal of the Company's buy-back authority. The renewed authority to make market purchases will be in respect of a maximum of 14.99 per cent of the issued ordinary shares of the Company on the date of the passing of the resolution (approximately 10.0 million ordinary shares). The price paid for the shares will not be less than the nominal value of 25p per share nor more than the higher of (i) 5 per cent above the average middle market value of those shares for the five business days before the shares are purchased and (ii) the higher of the last independent trade and the highest current bid on the London Stock Exchange. This power will only be exercised if, in the opinion of the Directors, a purchase would result in an increase in net asset value per share and be in the interests of the shareholders as a whole. Any shares purchased under this authority will be cancelled or held in treasury. The Directors have no current intention of utilising this authority. This authority will expire at the conclusion of the Annual General Meeting of the Company in 2019.

Notice of Meeting

Resolution 16, which is a Special Resolution, will be proposed to authorise the Directors to call general meetings of the Company (other than Annual General Meetings), on 14 clear days' notice as permitted by the Companies Act 2006 and as amended by the Companies (Shareholders' Rights) Regulations 2009. The Company will also need to meet the Companies Act 2006 requirements for electronic voting before it may call a general meeting on 14 clear days' notice. The Directors confirm that, in the event that a general meeting is called, they will give as much notice as is practicable and will only utilise the authority granted by Resolution 16 in limited and time sensitive circumstances.

Statement Regarding Annual Report and Accounts

Following a detailed review of the Annual Report and Accounts by the Audit Committee, the Directors consider that taken as a whole it is fair, balanced and understandable and provides the information necessary for shareholders to assess the Company's performance, business model and strategy. In reaching this conclusion, the Directors have assumed that the reader of the Annual Report and Accounts would have a reasonable level of knowledge of the investment industry in general and investment trusts in particular.

Disclosure of Information to the Auditor

The Directors confirm that, so far as each of the Directors is aware, there is no relevant information of which the Company's auditors are unaware and the Directors have taken all the steps that they ought to have taken as Directors to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Independent Auditors

BDO LLP have been auditor to the Company since May 2017. A resolution to authorise the Directors to determine their remuneration will be proposed at the Annual General meeting.

Directors and Officers Insurance

The Company has a Directors and Officers insurance policy in respect of liabilities that may attach to them in the capacity as Directors of the Company. This covers any liabilities that may arise to a third party for negligence, default or breach of trust or duty. This policy has been in force throughout the year under review and remains in place as at the date of this report. For more information see note 4.

Risks

The principal risks, both perceived and observed, together with their mitigations are set out in the Strategic Report on pages 11 and 12 and also note 16.

Financial risk management and objectives are discussed in the Strategic Report on page 12.

Post Balance Sheet Events

Details of the post balance sheet events can be found on page 47.

Future Developments

The likely future developments of the Company are contained in the Chairman's statement on page 4.

Greenhouse Gas Emissions

The Company has no greenhouse gas emissions to report from its operations for the year ended 30 June 2018. More information is set out in the Strategic Report on page 13.

Dividend Policy

Subject to market conditions and the Company's performance, financial position and financial outlook, it is the Directors' intention to pay an attractive level of dividend income to Shareholders on a quarterly basis. The Company intends to continue to pay all dividends as interim dividends. A resolution to approve this dividend policy will be proposed at the Annual General Meeting ('AGM'). Accordingly, the Directors are proposing Resolution 4, which will be proposed as an Ordinary Resolution.

Recommendation

The Directors consider the passing of the resolutions to be proposed at the Annual General Meeting to be in the best interests of the Company and its shareholders as a whole and likely to promote the success of the Company for the benefit of its shareholders as a whole. Accordingly, the Directors unanimously recommend that shareholders should vote in favour of the resolutions, as they intend to do in respect of their own beneficial shareholdings amounting to 81,040 ordinary shares.

By Order of the Board

Richard Prickett
Chairman

24 October 2018

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards including FRS 102 The Financial Reporting Standard Applicable in the UK and Republic of Ireland.

Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- prepare a director's report, a strategic report and a director's remuneration report which comply with the requirements of Companies Act 2006.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

Under applicable law and regulations, the Directors are also responsible for preparing a Directors' Report, Directors' Remuneration Report and Statement of Corporate Governance that comply with that law and those regulations. The financial statements are published on www.ncim.co.uk which is a website maintained by the Company's Investment Manager. The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The Directors confirm that to the best of our knowledge:

- the financial statements, prepared in accordance with UK GAAP, give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company;
- that in the opinion of the Directors, the Annual Report and Accounts taken as whole, is fair, balanced and understandable and it provides the information necessary to assess the Company's performance, business model and strategy; and
- the Strategic Report includes fair review of the development and performance of the business and the position of the Company, together with a description of the principal risks and uncertainties that the Company faces.

On behalf of the Board

Richard Prickett
Chairman

24 October 2018

Statement of Corporate Governance

Introduction

The UK Listing Authority requires all listed companies to describe how they have complied with the principles of the UK Corporate Governance Code published in April 2016 (the "Governance Code"), which is available on the Financial Reporting Council's website: www.frc.org.uk. The Governance Code covers in particular the annual re-appointment of Directors, Board diversity, external evaluation, the Board's responsibilities in relation to risk, and a clear explanation of business model and strategy.

The Association of Investment Companies has also published a Code of Corporate Governance ("AIC Code") and a Corporate Governance Guide for Investment Companies ("AIC Guide") which are available on the AIC's website: www.theaic.co.uk. The AIC Code, as explained by the AIC Guide, addresses all of the principles set out in Section 1 of the Governance Code, as well as setting out additional principles and recommendations on issues that are of specific relevance to investment companies.

The Board considers that reporting against the principles and recommendations of the AIC Code, and by reference to the AIC Guide (which incorporates the Governance Code), will provide better information to shareholders.

Application of the Principles of the Codes

The Company has complied with the provisions of the AIC Code and the Governance Code, except for the Governance Code provisions relating to:

- The role of the chief executive (A 1.2)
- Executive directors' remuneration (D.1.1 and D.1.2)
- The need for an internal audit function (C.3.6)

As indicated by the AIC Code the above exceptions are not believed to be applicable to an externally managed investment company.

The Board

The Board consists solely of non-executive Directors. Mr Prickett is Chairman and is responsible for leadership of the Board and ensuring its effectiveness on all aspects of its role. Given the size and composition of the Board it is not felt necessary to appoint a Senior Independent Director. All Directors, are considered by the Board to be independent of the Investment Manager. Each of these Directors is independent in character and judgement and, there are no relationships, or circumstances which the Board considers likely to affect the judgement of the independent Directors. New Directors receive an induction from the Company Secretary on joining the Board, and all Directors receive other relevant training as necessary.

The Board takes the view that independence is not compromised by length of tenure and that experience and continuity can add significantly to the Board's strength.

During the year ended 30 June 2018 the Board met 4 times. In addition, there were 2 Audit Committee meetings, 1 Management Engagement Committee meeting, 1 Nomination Committee meeting and 8 other ad hoc Committee meetings (to approve dividends, CULS conversion and the Half Yearly and Annual Reports). Between meetings the Board maintains regular contact with the Investment Manager.

Directors have attended Board and Committee meetings during the year ended 30 June 2018 as follows (with their eligibility to attend the relevant meeting in brackets):

	Board meetings	Nomination Committee meetings	Management Engagement Committee meetings	Audit Committee meetings
R Ö Prickett (Chairman)	3 (4)	– (1)	– (1)	1 (2)
G D C Burns	3 (3)	1 (1)	1 (1)	2 (2)
C Cable	3 (3)	– (–)	– (–)	1 (1)
C M Casey	3 (3)	– (–)	– (–)	1 (1)
A J R Collins	2 (2)	1 (1)	1 (1)	1 (1)
A G Evans	4 (4)	1 (1)	1 (1)	2 (2)
H F Green	4 (4)	1 (1)	1 (1)	2 (2)

The Board has a schedule of matters reserved to it for decision and the requirement for Board approval on these matters is communicated directly to the senior staff of the Investment Manager. Such matters include strategy, borrowings, treasury and dividend policy. Full and timely information is provided to the Board to enable the Directors to function effectively and to discharge their responsibilities. The Board also reviews the financial statements, performance and revenue budgets.

The Board has put in place necessary procedures to conduct, on an annual basis, an appraisal of the Chairman of the Board as well as a performance evaluation of the Board as a whole, the individual Directors and the Board Committees. This was conducted through a forum based assessment process. The Chairman regularly reviews and agrees with each Director their training and development needs. The annual evaluation of the Board and the Directors has been completed and the Directors have concluded that the Board continues to function effectively and individually.

The Board has reviewed the Chairman's and Directors' other commitments and is satisfied that the Chairman and other Directors are capable of devoting sufficient time to the Company.

There is an agreed procedure for Directors to take independent professional advice if necessary and at the Company's expense. This is in addition to the access which every Director has to the advice and services of the Company Secretary, Maitland Administration Services (Scotland) Limited, which is responsible to the Board for ensuring that Board procedures are followed and that applicable rules and regulations are complied with.

The Board has reviewed the Company's internal control, principal risks and uncertainties. These are described in the Strategic Report on pages 11 and 12.

Management Engagement Committee

A separate Management Engagement Committee, which is chaired by Mr Prickett and comprises the full Board, has been established. The Management Engagement Committee annually reviews matters concerning the management contract which exists between the Company and the Investment Manager. Details of the Management Agreement are shown in note 3 to the financial statements.

Nomination Committee

Appointments to the Board of Directors are considered by the Nominations Committee which is chaired by Mr Prickett and comprises the full Board. Possible new Directors are identified against the requirements of the Company's business and the need to have a balanced Board. The Terms of Reference of the Nomination Committee are available on request. External search consultants may be used to assist in the appointment of new Directors. Every Director is entitled to receive appropriate training as deemed necessary. A Director appointed during the year is required, under the provisions of the Company's Articles of Association, to retire and seek election by shareholders at the next Annual General Meeting. In 2011, the Board decided that all Directors would retire annually and, if appropriate, seek re-election.

Stewardship Code

The Financial Reporting Council ("FRC") published "The UK Stewardship Code" ("Code") for institutional shareholders in September 2012. The purpose of the Code is to enhance the quality of engagement between institutional investors and companies to help improve long-term returns to shareholders and the efficient exercise of governance responsibilities.

The FRC is encouraging institutional investors to make a statement of their commitment to the Code.

The Board has delegated responsibility for actively monitoring the activities of investee companies to the Investment Manager. The Investment Manager is responsible for reviewing, on a regular basis, the annual reports, circulars and other publications produced by the investee company, and for attending company meetings. The Investment Manager, in the absence of explicit instruction from the Board, is empowered to use discretion in the exercise of the Company's voting rights.

The Investment Manager's policy is to assess each voting opportunity individually and to vote only in cases where it is believed that the Company's best interests need to be protected. The Board has reviewed, and endorses, the Investment Manager's Statement of Compliance with the Code, which appears on the Investment Manager's website, at www.ncim.co.uk

The Board receives reports from the Manager on the exercise by the Investment Manager of the Company's voting rights.

Exercise of Voting Powers

The Investment Manager, in the absence of explicit instruction from the Board, is empowered to exercise discretion in the use of the Company's voting rights in respect of investee companies. The underlying aim of exercising such voting rights is to protect the return from an investment.

Relations with Shareholders

The Directors place a great deal of importance on communication with shareholders. The Annual Report and Accounts are widely distributed to other parties who have an interest in the Company's performance. Shareholders and investors may obtain up to date information on the Company through the Investment Manager's website. The Company responds to letters from shareholders on a wide range of issues.

A regular dialogue is maintained with the Company's institutional shareholders and with private client asset managers. Reference to significant holdings in the Company's ordinary shares can be found under "Substantial Interests in Share Capital" on page 16.

The Notice of the Annual General Meeting included within the Annual Report and Accounts is sent out 20 working days in advance of the meeting. All shareholders have the opportunity to put questions to the Board or Manager, either formally at the Company's Annual General Meeting or subsequent to the meeting when teas and coffees will be offered to shareholders. The Company Secretary is available to answer general shareholder queries at any time throughout the year.

By Order of the Board

Maitland Administration Services (Scotland) Limited
Secretaries

24 October 2018

Report of the Audit Committee

Composition of the Audit Committee

- An Audit Committee has been established with written terms of reference and comprises four non-executive Directors, Mrs H F Green (Chairman), Ms C Cable, Mr C M Casey and Mr A G Evans. The Audit Committee members have recent and relevant financial experience, and the Audit Committee as a whole has competence relevant to the sector in which the Company operates The terms of reference of the Audit Committee are reviewed and re-assessed for their adequacy on an annual basis and are disclosed on the Company's website. Further copies are available on request.

Role of the Audit Committee

A summary of the Committee's main audit review functions is shown below:

- to review and monitor the internal control systems and risk management systems on which the Company is reliant;
- to consider annually whether there is a need for the Company to have its own internal audit function;
- to monitor the integrity of the interim and annual financial statements of the Company by reviewing, and challenging where necessary, the actions and judgements of the Manager and Administrators;
- to meet with the external Auditor, BDO LLP ("BDO") to review their proposed audit programme of work and their findings. The Board shall also use this as an opportunity to assess the effectiveness of the audit process;
- to develop and implement policy on the engagement of the external Auditor to supply non-audit services;
- to review an annual statement from the Investment Manager and Administrator detailing the arrangements in place whereby the staff of the Investment Manager and of the Administrator may, in confidence, escalate concerns about possible improprieties in matters of financial reporting or other matters;
- to make recommendations in relation to the appointment of the external Auditor and to approve the remuneration and terms of engagement of the external Auditor; and,
- to monitor and review annually the external Auditor's independence, objectivity, effectiveness, resources and qualification.

Annual Report and Financial Statements

The Board of Directors are responsible for preparing the Annual Report and financial statements. The Audit Committee advises the Board on the form and content of the Annual Report and financial statements, any issues which may arise and any specific areas which require judgement.

Auditor

As part of its review of the scope and results of the audit, during the year the Audit Committee considered and approved BDO's plan for the audit of the financial statements for the year ended 30 June 2018. At the conclusion of the audit BDO did not highlight any issues to the Audit Committee which would cause it to qualify its audit report. BDO issued an unqualified audit report which is included on pages 26 to 29.

It has been agreed that all non-audit work to be carried out by BDO must be approved in advance by the Audit Committee and any special projects must also be approved in advance. KPMG provided tax services for the Company during the year.

As part of the review of auditor independence and effectiveness, BDO has confirmed that it is independent of the Company and has complied with relevant auditing standards. In evaluating BDO, the Audit Committee has taken into consideration the standing, skills and experience of the firm and the audit team. The Audit Committee, from direct observation and enquiry of the Investment Manager and Administrator, is satisfied that BDO provides effective independent challenge in carrying out its responsibilities.

Following professional guidelines, the audit partner rotates after five years. The audit partner is in her second year of appointment.

Following a discussion with the Investment Manager, the Audit Committee considers the main risks within the financial statements to be the valuation and ownership of quoted, unquoted and level 2 investments held by the Company.

In order to address this the Company has appointed an Investment Manager, Custodian and Depositary with clearly defined contracts and any breaches of these, or any law or regulation that the Company is required to comply with, are reported to the Board. The Board receives regular updates from the Investment Manager on the valuation of unquoted investments and assesses the information provided in establishing the valuations used within the net asset value. The Company also receives regular reporting on internal controls (as set out on page 23).

Internal Controls

The Board is ultimately responsible for the Company's system of internal control and for reviewing its effectiveness. Following publication of the Financial Reporting Council's "Internal Control: Revised Guidance for Directors on the Combined Code" (the "FRC guidance") the Board confirms that there is an ongoing process for identifying, evaluating and managing the significant risks faced by the Company. This process has been in place for the year under review and up to the date of approval of this Annual Report and is regularly reviewed by the Board and accords with the FRC Guidance.

The Board has reviewed the effectiveness of the system of internal control. In particular, it has reviewed and updated the process for identifying and evaluating the significant risks affecting the Company and policies by which these risks are managed. The significant risks faced by the Company are as follows:

- financial;
- operational; and
- compliance.

The key components designed to provide effective internal control are outlined below:

- Maitland Administration Services (Scotland) Limited ("Maitland") as Company Secretary and Administrator together with the Investment Manager prepares forecasts and management accounts which allow the Board to assess the Company's activities and review its performance;
- the Board and Investment Manager have agreed clearly defined investment criteria, specified levels of authority and exposure limits. Reports on these issues, including performance statistics and investment valuations, are regularly submitted to the Board and there are meetings with the Investment Manager as appropriate;
- as a matter of course the Investment Manager's compliance department continually reviews the Investment Manager's operations and reports to the Board on a quarterly basis;
- written agreements are in place which specifically define the roles and responsibilities of the Investment Manager, Administrator and other third party service providers;
- the Board has considered the need for an internal audit function but, because of the compliance and internal control systems in place at the Investment Manager and the Administrator, has decided to place reliance on the Investment Manager's and the Administrator's systems and their internal audit procedures.

The Audit Committee has established a set of ongoing processes designed to meet the particular needs of the Company in managing the risks to which it is exposed.

The process is one whereby the Investment Manager has identified the key risks to which the Company is exposed, and recorded them on a risk matrix together with the controls employed to mitigate these risks. A residual risk rating has been applied to each risk. The Audit Committee is responsible for reviewing the risk matrix and associated controls before recommending to the Board for consideration and approval, challenging the Investment Manager's assumptions to ensure a robust internal risk management process.

The Audit Committee formally reviewed the updated risk matrix during the year and will continue to do so on an annual basis. By their nature, these procedures provide a reasonable, but not absolute, assurance against material misstatement or loss.

Regular reports will be provided to the Audit Committee highlighting material changes to risk ratings.

During the year, the Audit Committee also discussed and reviewed the internal controls frameworks in place at the Investment Manager and the Administrator in depth. Discussions focused on three lines of defence: assurances at operational level; internal oversight; and independent objective assurance. The Audit Committee concluded that these frameworks were appropriate for the identification, assessment, management and monitoring of financial and regulatory risks, with particular regard to the protection of the interests of the Company's shareholders.

At its September meeting, the Audit Committee carried out an annual assessment of internal controls for the year ended 30 June 2018 by considering documentation from the Investment Manager and the Administrator, including the internal audit and compliance functions and taking account of events since 30 June 2018. The results of the assessment were then reported to the Board at the following Board meeting.

Internal control systems are designed to meet the Company's particular needs and the risks to which it is exposed. Accordingly, the internal control systems are designed to manage rather than eliminate the risk of failure to achieve business objectives and by their nature can only provide reasonable and not absolute assurance against mis-statement and loss.

The principal risks and uncertainties affecting the Company are disclosed on pages 11 and 12.

Helen Green

Chairman of the Audit Committee

24 October 2018

Directors' Remuneration Report

Remuneration Committee

Under the UK Listing Rules, where an investment company has only non-executive directors, the Governance Code principles relating to directors' remuneration do not apply. The full Board acts as the Remuneration Committee whose Chairman is the Chairman of the Company.

The remuneration of the Directors has been set in order to attract individuals of a calibre appropriate to the future development of the Company. The Company's policy on Directors' remuneration, together with details of the remuneration of each Director, is shown below.

The Board has prepared this report in accordance with the requirements of Section 421 of the Companies Act 2006. An ordinary resolution for the approval of this Report will be put to the members at the forthcoming Annual General Meeting. As the Board of Directors is comprised solely of non-executive Directors, it is exempt under the Listing Rules from appointing a Remuneration Committee. The determination of the Directors' fees is a matter dealt with by the whole Board. This Report has been divided into separate sections for unaudited and audited information.

Directors' Remuneration Policy

The Board's policy is that the remuneration of Directors should reflect the experience of the Board as a whole, be fair and comparable to that of other relevant investment trusts that are similar in size and have similar investment objectives and structures. Furthermore, the level of remuneration should be sufficient to attract and retain the Directors needed to oversee properly the Company and to reflect the specific circumstances of the Company, the duties and responsibilities of the Directors and the value and amount of time committed to the Company's affairs. It is intended that this policy will continue for the year ending 30 June 2019 and subsequent years. Accordingly, the Directors are proposing Resolution 2, which will be proposed as an Ordinary Resolution.

The fees for the non-executive Directors are determined within the limits set out in the Company's Articles of Association. The present limit is £125,000 per annum in aggregate and the approval of shareholders in a general meeting would be required to change this limit. At the prevailing level of Directors' fees the aggregate amount paid to the Company's Directors during the year to 30 June 2018 was £122,000. Non-executive Directors are not eligible for bonuses, pension benefits, share options, long-term incentive schemes or other benefits.

Directors' and Officers' liability insurance cover is maintained by the Company on behalf of the Directors.

It is the Board's policy that Directors do not have service contracts, but new Directors are provided with a letter of appointment which are kept on the Company Secretary's system.

The terms of Directors' appointments and the Company's Articles of Association provide that Directors should retire and be subject to election at the first Annual General Meeting after their appointment. Directors are obliged to retire by rotation, and to offer themselves for re-election by shareholders at least every three years after that. Any Director who has served on the Board for more than nine years will offer himself for re-election annually. However, the Board has agreed that all Directors will retire annually and, if appropriate, seek re-election. There is no notice period and no provision for compensation upon early

Director	Date of Appointment	Due date for Re-election
R Ö Prickett	30 November 2006	AGM 2018
C Cable	1 October 2017	AGM 2018
C C Casey	1 October 2017	AGM 2018
A G Evans	26 September 2014	AGM 2018
H F Green	1 September 2015	AGM 2018

termination of appointment.

Annual Report on Directors' Remuneration

Directors' Emoluments (audited)

	2018 £'000	2017 £'000
G D C Burns*	19	26
R Ö Prickett**††	22	19.5
C Cable***	15	–
C C Casey***	15	–
H F Green****†††	22	20.5
A J R Collins†	9	19
A G Evans	20	19
Totals	122	104

The Directors who served in the year received the following fees:

The amounts paid by the Company to the Directors were for services as non-executive Directors.

* Mr Burns resigned on 24 March 2018.
** Mr Prickett became Chairman on 24 March 2018.
*** Ms Cable and Mr Casey were appointed on 1 October 2017.
**** Chairman of the Audit Committee.
† Fees paid to Fincorp International Ltd.
†† Fees paid to European Sales Company Ltd.
††† Fees paid to Saffery Champness Management International Limited.

Relative Importance of Spend on Pay

The table below sets,out, in respect of the financial year ended 30 June 2018 and the preceding financial year:

a) the remuneration paid to the Directors; and

b) the distribution made to shareholders by way of dividend.

	Year ended 30 June 2018	Year ended 30 June 2017	% Change
Total remuneration	£122,000	£104,000	17.3
Dividend	£3,745,000	£3,745,000	–

Directors' Interests (audited)

Biographies of the Directors are shown on pages 14 and 15.

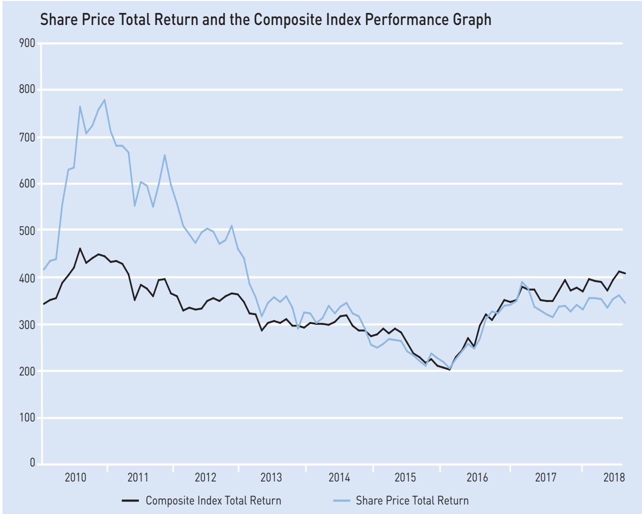
The interests (all of which were beneficial) of the Directors who held office at the year-end in the shares of the Company were:

	Ordinary shares		CULS	
	2018	2017	2018	2017
R Ö Prickett	65,000	39,000	–	–
C Cable	–	–	–	–
C Casey	–	–	–	–
A G Evans	10,540	10,540	–	–
H F Green	5,500	5,500	–	–

There has been no change in the ordinary share or CULS holdings of the Directors between 30 June 2018 and 24 October 2018.

Company Performance

The Board is responsible for the Company's investment strategy and performance, although the management of the Company's investment portfolio is delegated to the Investment Manager through the investment management agreement, as referred to in the Directors' Report on page 16. The graph opposite compares for the nine years to 30 June 2018 the share price total return (assuming all dividends are reinvested) to ordinary shareholders compared to the total shareholder return on a notional investment made up of shares of the same kinds and number as those by reference to which a composite index, weighted as to two-thirds Euromoney Global Mining Index (sterling adjusted) and one-third Credit Suisse High Yield Index (sterling adjusted), is calculated. This composite index was chosen as it represents a comparable mix of mining and resource equities and fixed interest securities.



Voting at Annual General Meeting

At the Company's last Annual General Meeting, held on 28 November 2017, shareholders approved the Directors' Remuneration Policy and the Directors' Remuneration Report in respect of the year ended 30 June 2017. 90.5% of votes were in favour of the resolutions and 0.2% were against.

An ordinary resolution for the approval of the Annual Report on Directors' Remuneration will be put to an advisory shareholder vote at the forthcoming Annual General Meeting.

An ordinary resolution for the approval of the Directors' Remuneration Policy will be put to a binding shareholder vote at the forthcoming Annual General Meeting.

Approval

The Directors' Remuneration Report on pages 24 and 25 was approved by the Board of Directors and signed on its behalf on 24 October 2018.

Richard Prickett
Chairman

Independent Auditor's Report to the Members of City Natural Resources High Yield Trust plc

Opinion

We have audited the financial statements of City Natural Resources High Yield Trust plc ("the Company") for the year ended 30 June 2018 which comprise the Income Statement, The Balance Sheet, Statement of Changes in Equity, Cash Flow Statement and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 30 June 2018 and of its profit for the year then ended;
- have been properly prepared in accordance with UK Accounting Standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard as applied to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to principal risks, going concern and viability statement

We have nothing to report in respect of the following information in the annual report, in relation to which the ISAs (UK) require us to report to you whether we have anything material to add or draw attention to:

- the disclosures in the annual report set out on pages 11 and 12 that describe the principal risks and explain how they are being managed or mitigated;
- the directors' confirmation set out on page 12 in the annual report that they have carried out a robust assessment of the principal risks facing the Company, including those that would threaten its business model, future performance, solvency or liquidity;
- the directors' statement set out on page 12 in the financial statements about whether the directors considered it appropriate to adopt the going concern basis of accounting in preparing the financial statements and the directors' identification of any material uncertainties to the Company's ability to continue to do so over a period of at least twelve months from the date of approval of the financial statements;
- whether the directors' statement relating to going concern required under the Listing Rules in accordance with Listing Rule 9.8.6R(3) is materially inconsistent with our knowledge obtained in the audit; or
- the directors' explanation set out on page 12 in the annual report as to how they have assessed the prospects of the Company, over what period they have done so and why they consider that period to be appropriate, and their statement as to whether they have a reasonable expectation that the Company will be able to continue in operation and meet its liabilities as they fall due over the period of their assessment, including any related disclosures drawing attention to any necessary qualifications or assumptions.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified. These matters included those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<table>
<tr><th>Key audit matter</th><th>How We Addressed the Key audit matter in the Audit</th></tr>
<tr><td>

Valuation of Investments

We consider the valuation of investments (note 9) to be the most significant audit area as it is the most significant balance in the financial statements and underpins the principal activity of the entity. Furthermore, there is an element of subjectivity in the valuation of investments.

The investment manager fee is based on the value of the Company's gross assets. As the investment manager is responsible for valuing the investments there is a potential risk of overstatement.

</td><td>

We responded to this risk by testing the valuation and existence of 100% of the portfolio of investments. We performed the following procedures:

In respect of quoted investment valuations (£100.9m/ 82%) we have:

- We have confirmed the year-end price has been agreed to externally quoted prices
- Considered contra indicators of value to suggest that the year-end price is not the most appropriate indication of fair value such as potential liquidity issues
- Confirmed the investment holdings to independently received third party confirmation from the custodian

In respect of the fixed income and convertible investment valuations (£21.4m/ 17%) we have:

- We have confirmed that the year-end price has been agreed to externally obtained vendor prices
- Considered contra indicators of value to suggest that the year-end price is not the most appropriate indication of fair value such as potential liquidity issues
- Considered any non-performance of the investment and/or defaults on interest payments
- Confirmed the investment holdings to independently received third party confirmation from the custodian

In respect of the derivative investments (£695k/ <1%) we have:

- Considered the appropriateness of the valuation methodology applied by the investment manager
- Calculated the value of the derivative using a derivative pricing model and compared this price to the investment portfolio
- Considered the underlying stock and whether there were any contra indicators that could impact the fair value of the warrant
- Considered the duration of the warrant and the time to expiry
- Confirmed the investment holdings to independently received third party confirmation from the custodian

In respect of the unquoted investments (£180k/ <1%) we have:

- Considered the rationale for investments valued at nil and performed independent research to identify any indications of undervaluation
- Agreed the valuations where relevant through to third party valuation report or third party data
- Considered whether the valuation methodology is the most appropriate in the circumstances under the International Private Equity and Venture Capital Valuation ("IPEV") Guidelines
- Re-performed the calculation of the investment valuations
- Challenged the investment manager on the significant assumptions made
- Confirmed the investment holdings to independently received third party confirmation from the custodian.

We also considered the completeness and accuracy of investment related disclosures.

Based on our procedures performed we concluded that the valuation of the portfolio of investments was considered to be appropriate.

</td></tr>
</table>

Our application of materiality

We apply the concept of materiality both in planning and performing our audit, and in evaluating the effect of misstatements. For planning, we consider materiality to be the magnitude by which misstatements, including omissions, could reasonably influence the economic decisions of users that are taken on the basis of the financial statements.

Materiality Measure	Purpose	Key considerations and benchmarks	2018 Quantum (£)	2017 Quantum (£)
Financial Statement Materiality (1% of the value of the investment portfolio) [2017: 1% of the value of the investment portfolio]	Assessing whether the financial statements as a whole present a true and fair view.	• A principal consideration for members of the company in assessing the financial performance given that the principal activity of the company is that of an Investment Trust • The value of investments • The level of judgement inherent in the valuation • The nature and disposition of the investment portfolio	£1,230,000	£1,129,000
Performance Materiality (75% of financial statement materiality) [2017: 70% planning materiality]	Lower level of materiality applied in performance of the audit when determining the nature and extent of testing applied to individual balances and classes of transactions.	• Financial statement materiality • Risk and control environment	£920,000	£790,000

Under ISA (UK) 320, an auditor is required to consider whether there are one or more particular classes of transactions or account balances, for which misstatements of lesser amounts than materiality are appropriate. We consider that the Company's on-going costs and net realised revenue returns could influence users of the financial statements and we have therefore applied a lower specific materiality level of £260,000 (2017: £106,000) to investment income, costs and other relevant transactions and balances that drive the revenue return to shareholders. This has been based on 10% of net revenue return before tax.

We agreed with the Audit Committee that we would report to the committee all individual audit differences in excess of £13,000.

Other information

The Directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Other information also excludes the Report from CQS (UK) LLP Relating to Matters under the Alternative Investment Fund Managers' Directive on page 52 to 53. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information, in respect of the Strategic Report and Directors' Reports and Governance Reports included on pages 11 to 21 and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard

In this context, we also have nothing to report in regard to our responsibility to specifically address the following items in the other information and to report as uncorrected material misstatements of the other information where we conclude that those items meet the following conditions:

- **Fair, balanced and understandable set out on page 18 –** the statement given by the directors that they consider the annual report and financial statements taken as a whole is fair, balanced and understandable and provides the information necessary for shareholders to assess the Company's performance, business model and strategy, is materially inconsistent with our knowledge obtained in the audit; or
- **Audit committee reporting set out on page 22 and 23 –** the section describing the work of the audit committee does not appropriately address matters communicated by us to the audit committee; or
- **Directors' statement of compliance with the UK Corporate Governance Code set out on page 20 –** tthe parts of the directors' statement required under the Listing Rules relating to the Company's compliance with the UK Corporate Governance Code containing provisions specified for review by the auditor in accordance with Listing Rule 9.8.10R(2) do not properly disclose a departure from a relevant provision of the UK Corporate Governance Code.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, the part of the directors' remuneration report to be audited has been properly prepared in accordance with the Companies Act 2006.

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements and those reports have been prepared in accordance with applicable legal requirements;

- the information about internal control and risk management systems in relation to financial reporting processes and about share capital structures, given in compliance with rules 7.2.5 and 7.2.6 in the Disclosure Guidance and Transparency Rules sourcebook made by the Financial Conduct Authority (the FCA Rules), is consistent with the financial statements and has been prepared in accordance with applicable legal requirements; and
- information about the Company's corporate governance code and practices and about its administrative, management and supervisory bodies and their committees complies with rules 7.2.2, 7.2.3 and 7.2.7 of the FCA Rules.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the Company and the parent Company and its environment obtained in the course of the audit, we have not identified material misstatements in:

- the strategic report or the directors' report; or
- the information about internal control and risk management systems in relation to financial reporting processes and about share capital structures, given in compliance with rules 7.2.5 and 7.2.6 of the FCA Rules.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements and the part of the directors' remuneration report to be audited are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- a corporate governance statement has not been prepared by the Company.

Responsibilities of directors

As explained more fully in the Statement of Directors' Responsibilities set out on page 19, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the parent Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Other matters which we are required to address

Following the recommendation of the audit committee, we were appointed by The Board of Directors on 23 May 2017 to audit the financial statements for the year ending 30 June 2017 and subsequent financial periods. The period of total uninterrupted engagement is 2 years, covering the years ending 30 June 2017 to 30 June 2018.

The non-audit services prohibited by the FRC's Ethical Standard were not provided to the Company and we remain independent of the Company in conducting our audit.

No non- audit services were provided by the firm to the Company in the year.

Our audit opinion is consistent with the additional report to the audit committee.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Vanessa Bradley (Senior Statutory Auditor)

Notes to the Financial Statements

for the year to 30 June 2018

1 Accounting Policies

City Natural Resources High Yield Trust plc is a company limited by shares, it was incorporated in accordance with the Laws of England and Wales, details of the registered office are included on page 54.

A summary of the principal accounting policies adopted is set out below.

(a) Basis of Accounting

The financial statements have been prepared in accordance with Financial Reporting Standard 102 and with the Statement of Recommended Practice 'Financial Statements of Investment Trust Companies and Venture Capital Trusts' 2014 ('SORP'). They have also been prepared on a going concern basis and on the assumption that approval as an investment trust will continue to be granted.

The Directors have, at the time of approving the financial statements, a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the financial statements. Further detail is included in the Strategic Review (unaudited) on page 12.

Presentation of the Income Statement

In order to reflect better the activities of an investment trust company and in accordance with the SORP, supplementary information which analyses the Income Statement between items of a revenue and capital nature has been presented alongside the Income Statement. The net revenue return is the measure the Directors believe to be appropriate in assessing the Company's compliance with certain requirements set out in Chapter 4 of Part 24 of the Corporation Tax Act 2010 (previously Section 842 of the Income and Corporation Taxes Act 1988).

The notes and financial statements are presented in pounds sterling and are rounded to the nearest thousand except where otherwise indicated.

Critical accounting estimates and judgements

The preparation of the financial statements necessarily requires the exercise of judgement both in application of accounting policies which are set out below and in the selection of assumptions used in the calculation of estimates. These estimates and judgements are reviewed on an ongoing basis and are continually evaluated based on historical experience and other factors. However, actual results may differ from these estimates. The most significant judgement is the valuation of unquoted investments which is described in note 1(d) below.

(b) Financial assets

All financial assets are initially recognised at fair value net of transactions costs incurred. All financial assets are recorded at the date on which the Company became party to the contractual requirements of the financial asset. Subsequently, they are measured at fair value through profit or loss except for those equity investments that are not publicly traded and whose fair value cannot otherwise be measured reliably which are recognised at cost less impairment until a reliable measure of fair value becomes available.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

(c) Financial liabilities

All financial liabilities are initially recognised at fair value net of transaction costs incurred. All financial liabilities are recorded on the date on which the Company becomes party to the contractual requirements of the financial liability.

(d) Fixed asset investments

Purchases or sales of investments are recognised/derecognised on the date the Company commits to purchase/sell the investments. Investments are classified at fair value through profit and loss on initial recognition with any resultant gain or loss recognised in the Income Statement. Listed securities are valued at bid price or last traded price, depending on the convention of the exchange on which the investment is listed, adjusted for accrued income where it is reflected in the market price. Investments which are not listed or where trading in the securities of an investee company is suspended are valued at the Board's best estimate of fair value. Unquoted investments are valued by the Directors on the basis of all the information available to them at the time of valuation. This includes a review of: the financial and trading information of the Company, covenant compliance, ability to repay the interest and cash balances. For convertible bonds this includes consideration of the discounted cash flows of the interest and principal and underlying equity value, based on the information provided by the Investment Manager. Where no reliable fair value can be estimated, equity investments may be carried at cost less any provision for impairment.

The Directors believe that the applied valuation techniques and assumptions used are appropriate in determining the fair value of unlised investments. Further details are provided in note 9.

Realised gains or losses on the disposal of investments and permanent impairments in the value of investments are taken to capital reserve. Gains and losses arising from changes in the fair value of investments are included in the Income Statement as a capital item.

(e) Income

Dividends receivable on equity shares are recognised as income on the date that the related investments are marked ex-dividend. Dividends receivable on equity shares where no ex-dividend date is quoted are recognised as income when the Company's right to receive payment is established.

Fixed returns on non-equity shares are recognised on a time apportioned basis so as, if material, to reflect the effective interest rate on those instruments. Other returns on non-equity shares are recognised when the right to the return is established. The fixed return on a debt security is recognised on a time apportioned basis so as to reflect the effective interest rate on each such security.

Income from deposit interest and underwriting commission is recognised on an accruals basis.

(f) Taxation

The charge for taxation is based on net revenue for the year. The tax effect of different items of income/gain and expenditure/loss is allocated between capital and revenue on the same basis as the particular item to which it relates.

Deferred tax balances are recognised in respect of all timing differences that have orginated but not reversed by the balance sheet date, except:

- The recognition of deferred tax assets is liited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences.

Deferred income tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

Because the Company intends each year to qualify as an investment trust under Chapter 4 of Part 24 of the Corporation Tax Act 2010 (previously S842 of the Income and Corporation Taxes Act 1988), no provision is made for deferred taxation in respect of the capital gains that have been realised, or are expected in the future to be realised, on the sale of fixed asset investments.

(g) Expenses

All expenses are accounted for on an accruals basis. Expenses are charged through the Income Statement as a revenue item except the following which are charged to capital:

- expenses which are incidental to the disposal of an investment are deducted from the disposal proceeds of the investment;
- the Company charges 75 per cent of investment management fees to capital, in line with the Board's expected long term return in the form of capital gains and income respectively from the investment portfolio of the Company. For further details refer to note 3.

(h) Foreign currency

Transactions denominated in foreign currencies are recorded in the local currency at actual exchange rates at the date of the transaction. Overseas assets and liabilities denominated in foreign currencies at the year end are reported at the rates of exchange prevailing at the year end. Instruments held at fair value are translated at the rate prevailing at the time the fiar value is determined. Any gain or loss arising from a change in exchange rates subsequent to the date of a transaction is included as an exchange gain or loss in capital reserves. The functional currency of the Company, being its statutory reporting currency, is sterling.

(i) Finance costs

Finance costs are accounted for on an accruals basis. Finance costs of debt, insofar as they relate to the financing of the Company's investments or to financing activities aimed at maintaining or enhancing the value of the Company's investments, are allocated between revenue and capital in accordance with the Board's expected long-term split of returns, in the form of income and capital gains respectively, from the Company's investment portfolio. For further details refer to note 5.

(j) 3.5% Convertible Unsecured Loan Stock 2018

3.5% Convertible Unsecured Loan Stock 2018 issued by the Company is regarded as a compound instrument, comprising of a liability component and an equity component. At the date of issue, the fair value of the liability component was estimated by assuming that an equivalent non-convertible obligation of the Company would have a coupon rate of 5.75%. The fair value of the equity component, representing the option to convert liability into equity, is derived from the difference between the issue proceeds of the CULS and the fair value assigned to the liability. The liability component is subsequently measured at amortised cost using the effective cost interest rate.

Direct expenses associated with the CULS issue are allocated to the liability and equity components in proportion to the split of the proceeds of the issue. Expenses allocated to the liability component are amortised over the life of the instrument.

The interest expense on the CULS is calculated according to the effective interest rate method by applying the assumed rate of 5.75% at initial recognition to the liability component of the instrument. The difference between this amount and the actual interest paid is added to the carrying amount of the CULS.

While this additional 'notional' interest is charged to the capital account it is not considered to be a true loss and so this is transferred against the CULS equity as a reserve movement.

The CULS were repaid on 28 September 2018.

(k) Reserves

(a) Share premium – the surplus of net proceeds received from the issuance of new shares over their par value is credited to this account and the related issue costs are deducted from this account. The reserve is non-distributable.

(b) Capital reserve – The following are accounted for in this reserve:

- gains and losses on the realisation of investments;
- realised and unrealised exchange differences on transactions of a capital nature;
- capitalised expenses and finance costs, together with the related taxation effect; and
- increases and decreases in the valuation of investments held.

(c) Special reserve – created from the Court cancellation of the share premium account which had arisen from premiums paid at launch. Available as distributable profits.

(d) Revenue reserve – the net profit/(loss) arising in the revenue column of the Income Statement is added to or deducted from this reserve. Available for paying dividends.

(e) CULS equity component reserve –this balance represents the equity component of the CULS, provided in relation to the Separation of the CULS between its debt and equity components.

(l) Single Segmental Reporting

The company is engaged in a Single Segment of business, being investment business, consequently no business segmental analysis is provided.

2 Income

	2018 £'000	2017 £'000
Income from investments*		
UK dividend income	270	463
UK unfranked investment income	265	669
Preference share income	801	472
Overseas dividend income	518	1,458
Overseas fixed interest	1,800	1,820
	3,654	4,882
Other income†		
Deposit interest	11	4
Other income	35	6
	46	10
Total income	3,700	4,892
Total income comprises:		
Dividends	1,589	2,393
Fixed interest securities	2,065	2,489
Deposit interest	11	4
Other income	35	6
	3,700	4,892

*All investment income arises on investments valued at fair value through Profit or Loss on initial recognition.

†Other income on financial assets not valued at fair value through Profit or Loss on initial recognition.

3 Investment Management Fee

	2018 Revenue £'000	2018 Capital £'000	2018 Total £'000	2017 Revenue £'000	2017 Capital £'000	2017 Total £'000
Investment management fee	290	869	1,159	293	878	1,171

The Company's Investment Manager is CQS which in turn has delegated this function to NCIM. The contract between the Company and CQS may be terminated by either party giving not less than six months' notice of termination.

Until 3 April 2018 the Company's annual management fee was 1.2 per cent of net assets. Since 3 April the Company's annual management fee has been 1.2 per cent on net assets up to £150m; 1.1 per cent on net assets above £150m and up to £200m; 1.0 per cent on net assets above £200m and up to £250m; and, 0.9 per cent on net assets above £250m.

The balance due to CQS for management fees at the year end was £94,470 (2017: £90,000).

Investment management fees have been allocated 75 per cent to capital and 25 per cent to revenue (2017: 75% capital, and 25% revenue).

4 Other Expenses (including irrecoverable VAT)

	2018 Revenue £'000	2018 Capital £'000	2018 Total £'000	2017 Revenue £'000	2017 Capital £'000	2017 Total £'000

Total tax charge/(credit)	404	(284)	120	378	(211)	167

Reconciliation of Tax Charge

The tax assessed for the year is the current standard rate of corporation tax in the UK. A reconciliation of the total tax charge is set out below:

	2018 Total £'000	2017 Total £'000
Return on ordinary activities before taxation	10,664	7,622
Corporation tax at standard rate of 19.00% (2017: 19.75%)	2,026	1,505
Effects of:		
Non taxable income	(210)	(534)
Non taxable losses	(1,902)	(1,271)
Overseas withholding tax	120	167
Excess management expenses (deferred tax not recognised)	149	304
Non deductible exchange gains	(63)	(4)
Current year tax charge	120	167

Due to the Company's status as an Investment Trust, and the intention to continue meeting the conditions required to obtain approval in the foreseeable future, the Company has not provided for deferred tax on capital gains and losses arising on the revaluation or disposal of investments.

At 30 June 2018 the Company had surplus management expenses of £6,419,000 (2017: £5,635,000) on which no deferred tax asset has been recognised.

7 Dividends

	2018 Revenue £'000	2017 Revenue £'000
Amounts recognised as distributions to equity holders in the year:		
– Fourth interim dividend for the year ended 30 June 2017 of 3.02p (2016 – 3.02p) per ordinary share	**2,020**	2,020
– First interim dividend for the year ended 30 June 2018 of 0.86p (2017 – 0.86p) per ordinary share	**575**	575
– Second interim dividend for the year ended 30 June 2018 of 0.86p (2017 – 0.86p) per ordinary share	**575**	575
– Third interim dividend for the year ended 30 June 2018 of 1.26p (comprising two third interim dividends of 0.86p and 0.4p) (2017 – 0.86p) per ordinary share	**843**	575
	4,013	3,745
Amounts relating to the year but not paid at the year end:		
– Fourth interim dividend for the year ended 30 June 2018 of 2.62p (2017 – 3.02p) per ordinary share	**1,752**	2,020

In accordance with FRS 102 the fourth interim dividend has not been included as a liability in these accounts and will be recognised in the period in which it is paid.

8 Return per Ordinary Share

Return per ordinary share attributable to shareholders reflects the overall performance of the Company in the year.

	Year ended 30 June 2018 £'000	Year ended 30 June 2017 £'000
Revenue return	2,197	3,395
Capital return	8,347	4,060
Total return	10,544	7,455
	Number	Number
Weighted average ordinary shares in issue	**66,884,094**	66,880,724
Revenue return per ordinary share	3.28	5.08
Capital return per ordinary share	12.48	6.07
Total return per ordinary share	15.76	11.16

For the years ended 30 June 2018 and 30 June 2017 there was no dilution to the revenue return per ordinary share. Additionally, for the year ended 30 June 2018 and 30 June 2017 there was no dilution to the capital return per ordinary share.

9 Investments

	2018 £'000	2017 £'000
Equity shares	**80,368**	73,254
Fixed income securities	**21,358**	22,649
Preference shares	**10,095**	9,295

Placings	**419**	805
Convertible securities	**–**	664
Warrants	**695**	239
	123,420	112,902

Included above are unquoted investments of value £180,223 (2017: £870,000).

The Company does not intend to acquire securities that are unquoted or unlisted at the time of investment with the exception of securities which, at the time of acquisition, are intending to list on a stock exchange or securities which are convertible into quoted securities. However, the Company may continue to hold securities that cease to be quoted or listed if the Investment Manager considers this to be appropriate.

All investments are designated fair value through profit or loss at initial recognition, therefore all gains and losses arise on investments designated at fair value through profit or loss.

FRS 102 The Financial Reporting Standard Applicable in the UK and Republic of Ireland requires an analysis of investments valued at fair value based on the reliability and significance of information used to measure their fair value. The level is determined by the lowest (that is the least reliable or independently observable) level of input that is significant to the fair value measurement for the individual investment in its entirety as follows:

- Level 1 – investments quoted in an active market;
- Level 2 – investments whose fair value is based directly on observable current market prices or indirectly being derived from market prices;
- Level 3 – investments whose fair value is determined using a valuation technique based on assumptions that are not supported by observable current market prices or based on observable market data.

	Level 1 Listed in UK £'000	Level 1 Listed overseas £'000	Level 2* £'000	Level 3 £'000	2018 Total £'000	2017 Total £'000
Opening book cost	21,268	64,600	26,321	18,161	130,350	139,580

Closing fair value adjustment	2,354	10,596	(1,343)	(14,582)	(2,975)	(17,448)
Closing valuation	27,719	73,562	21,959	180	123,420	112,902

*Normally, investment company investments would be valued using stock market active prices with investments disclosed as Level 1, and this is the case for the quoted equity investments that the Company holds. However, a significant number of the investments are non-equity investments. These securities are priced using evaluated prices from a third party vendor, together with a price comparison made to secondary and tertiary evaluated third party sources. Evaluated prices are in turn based on a variety of sources, including broker quotes and benchmarks. As a result these investments are disclosed as Level 2 – recognising that the fair values of these investments are not as visible as quoted equity investments and their higher inherent pricing risk. However, this does not mean that the fair values shown in the portfolio valuation are not achievable at point of sale.

The gains and losses included in the above table have all been recognised within gains/(losses) on investments in the Income Statement on page 30. The Directors believe that the use of reasonable possible alternative assumptions for its Level 3 holdings would not result in a valuation significantly different from the valuation included in these financial statements.

Gains/(losses) on investments	**2018 £'000**	**2017 £'000**
Realised losses on sale	**(4,464)**	(2,169)
Movement in fair value	**14,498**	8,689
Effective yield	**(25)**	(82)
Gains on investments	**10,009**	6,438

During the year the Company incurred transaction costs on the purchases of £15,468 (2017: £32,682) and transaction costs on sales of £26,130 (2017: £53,941).

10 Debtors

	2018 £'000	2017 £'000

Balance at 30 June 2017	**34,530**	**33,824**	**488**

On 26 September 2011, the Company issued £40,000,000 nominal of 3.5% Convertible Unsecured Loan Stock 2018. The CULS can be converted at the election of holders into ordinary shares during the months of March and September in each year throughout their life, commencing March 2012 to September 2018 at a rate of 1 ordinary share for every 377.1848p nominal of CULS.

On 13 October 2017, the Company issued 17 ordinary shares in connection with the exercise of £65 nominal of the Company's CULS. On 5 April 2018, the Company issued 5,120 ordinary shares in connection with the exercise of £19,319 nominal of the Company's CULS. On 2 October 2018, the Company issued 398 ordinary shares in connection with the exercise of £1,508 nominal of the Company's CULS.

Once 80% of the nominal amount of the CULS issued have been converted, the Company is allowed to request that holders redeem or convert the remainder. Interest is paid on the CULS on 31 March and 30 September in each year. 25% of the interest is charged to revenue in line with the Board's expected long-term split of returns from the investment portfolio of the Company.

As at 30 June 2018, there was £34,511,074 nominal of CULS in issue of which £34,509,566 was repaid on 28 September 2018.

13 Share Capital

	2018 Shares	2018 £'000
Authorised at 30 June

On 13 October 2017, the Company issued 17 ordinary shares in connection with the exercise of £65 nominal of the Company's CULS. On 5 April 2018, the Company issued 5,120 ordinary shares in connection with the exercise of £19,319 nominal of the Company's CULS.

Capital management policies and procedures

The Company's capital management objectives are:

- to ensure that the Company will be able to continue as a going concern; and
- to maximise the capital return to its equity shareholders through an appropriate balance of equity capital and debt. The Board normally seeks to limit gearing to 25% of net assets.

The Board monitors and reviews the broad structure of the Company's capital on an ongoing basis. This review includes the nature and planned level of gearing, which takes account of the Investment Manager's views on the market, and the extent to which revenue in excess of that which is required to be distributed should be retained. The Company has no externally imposed capital requirements.

The capital of the Company is managed in accordance with its investment policy detailed in the Strategic Review on page 11.

14 Net Asset Value per Ordinary Share

The net asset value per ordinary share is based on net assets of £95.2 million (2017: £88.7 million) and on 66,888,111 (2017: 66,882,974) ordinary shares, being the number of ordinary shares in issue at the year end.

15 Reconciliation of Net Return before Finance Costs and Taxation, to Net Cash Inflow from Operating Activities

	2018 £'000	2017 £'000
Net return before finance costs and taxation	12,360	9,657
Gains on investments	(10,009)	(6,438)
Effective yield	(25)	(82)

(Increase)/decrease in accrued income	248	(478)
Decrease/(increase) in other debtors	(1)	16
Decrease in other creditors	12	(11)
Exchange gains	(334)	(18)
Net cash inflow from operating activities	2,131	2,479

16 Financial Instruments

The Company's financial instruments comprise its investment portfolio, cash balances, bank facilities and debtors and creditors that arise directly from its operations. As an investment trust the Company holds a portfolio of financial assets in pursuit of its investment objective. The Company can make use of flexible borrowings for short term purposes to achieve improved performance in rising markets and to seek to enhance the returns to shareholders, when considered appropriate by the Investment Manager. The downside risk of borrowings may be reduced by raising the level of cash balances held.

Listed fixed asset investments held (see note 9) are valued at fair value. For listed securities this is either bid price or the last traded price depending on the convention of the exchange on which the investment is listed. Unquoted investments are valued by the Directors on the basis of all the information available to them at the time of valuation. The fair value of all other financial assets and liabilities is represented by their carrying value in the Balance Sheet shown on page 31. The fair value of the 3.5% Convertible Unsecured Loan Stock 2018 is not materially different from its carrying value in the Balance Sheet.

The main risks that the Company faces arising from its financial instruments are:

(i) market price risk, being the risk that the value of investment holdings will fluctuate as a result of changes in market prices caused by factors other than interest rate or currency rate movements;

(ii) interest rate risk, being the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates;

(iii) foreign currency risk, being the risk that the value of investment holdings, investment purchases, investment sales and income will fluctuate because of movements in currency rates;

(iv) credit risk, being the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Company; and

(v) liquidity risk, being the risk that the bank may demand re-payment of a loan or that the Company may not be able to quickly liquidate its investments.

The Company held the following categories of financial instruments as at 30 June 2018:

	2018 £'000	2017 £'000
Financial assets		
Investment portfolio	123,420	112,902
Cash at bank and on deposit	7,722	7,371
Amounts due from brokers	–	2,098
Accrued income	648	905
Other debtors	23	24
Financial liabilities		
3.5% Convertible Unsecured Loan Stock 2018	33,292	33,824
Amounts due to brokers	1,698	123
CULS interest due	301	300
Other creditors	152	304

Market price risk

Market price risk arises mainly from uncertainty about future prices of financial instruments held. It represents the potential loss the Company might suffer through holding market positions in the face of price movements. To mitigate the risk the Board's investment strategy is to select investments for their fundamental value. Stock selection is therefore based on disciplined accounting, market and sector analysis, with the emphasis on long term investments. An appropriate spread of investments is held in the portfolio in order to reduce both the statistical risk and the risk arising from factors specific to a country or sector. The Investment Manager actively monitors market prices throughout the year and reports to the Board, which meets regularly in order to consider investment strategy.

Investment and portfolio performance are discussed in more detail in the Investment Manager's Review and further information on the investment portfolio is set out on pages 9 and 10.

If the investment portfolio valuation fell by 10 per cent at 30 June 2018, the impact on the profit or loss and the net asset value would have been negative £12.3 million (2017: negative £11.3 million). If the investment portfolio valuation rose by 10 per cent the impact would have been equal and opposite. The calculations are based on the portfolio valuation as at the respective balance sheet dates and are not representative of the year as a whole, and may not be reflective of future market conditions.

10% sensitivity has been selected as this level of change is considered to be reasonable based on observations of current market conditions.

Interest rate risk

Financial assets

Bond and preference share yields, and their prices, are determined by market perception as to the appropriate level of yields given the economic background. Key determinants include economic growth prospects, inflation, the Government's fiscal position, short term interest rates and international market comparisons. The Investment Manager takes all these factors into account when making any investment decisions as well as considering the financial standing of the potential investee company.

Returns from bonds and preference shares are fixed at the time of purchase, as the fixed coupon payments are known, as are the final redemption proceeds. Consequentially, if a bond is held until its redemption date, the total return achieved is unaltered from its purchase date. However, over the life of a bond the market price at any given time will depend on the market environment at that time. Therefore, a bond sold before its redemption date is likely to have a different price to its purchase level and a profit or loss may be incurred.

The Company's exposure to floating interest rates gives rise to cash flow interest rate risk and its exposure to fixed interest rates gives rise to fair value interest rate risk. Interest rate risk on fixed rate interest instruments is considered to be part of market price risk as disclosed above.

If the bank base rate had increased by 0.5 per cent, the impact on the profit or loss would have been a profit of £39,000 (2017: £37,000). If the bank base rate had decreased by 0.5 per cent, the impact on the profit or loss would have been equal and opposite. The calculations are based on borrowings as at the respective balance sheet dates and are not representative of the year as a whole.

Floating rate

When the Company retains cash balances they are held in floating rate deposit accounts. The benchmark rate which determines the interest payments received on cash balances is the bank base rate for the relevant currency for each deposit.

Financial liabilities

The Company may utilise the bank facility to meet any liabilities due. The Company has borrowed in sterling at a variable rate based on the UK bank base rate. The Board sets borrowing limits to ensure gearing levels are appropriate to market conditions and reviews these on a regular basis.

Fixed rate

The Company holds fixed interest investments and has fixed interest liabilities. The fixed interest liabilities are disclosed in note 12.

	2018 £'000	2018 Weighted average interest rate (%)*	2018 Weighted average period for which the rate is fixed (years)	2017 £'000	2017 Weighted average interest rate(%)*	2017 Weighted average period for which the rate is fixed (years)
Assets:						
Fixed income and convertible securities	21,358	5.6	3.8	23,312	12.0	7.3
Preference shares	10,095	9.4	n/a	9,295	9.5	n/a

* The "weighted average interest rate" is based on the current yield of each asset, weighted by their market value.

Foreign currency risk

The Company invests in overseas securities and may hold foreign currency cash balances which give rise to currency risks. The Company does not hedge its currency exposure and as a result the movement of exchange rates between pounds sterling and the other currencies in which the Company's investments are denominated may have a material effect, unfavourable or favourable, on the returns otherwise experienced on the investments made by the Company. Although the Investment Manager may seek to manage all or part of the Company's foreign exchange exposure, there is no assurance that this can be performed effectively.
Foreign currency exposure at 30 June was as follows:

30 June 2018	Investments £'000	Cash £'000	Net current assets £'000	Total £'000	Sensitivity Impact +5% £'000	Sensitivity Impact -5% £'000
Canadian Dollar	44,445	1,052	(833)	44,664	2,233	(2,233)
US Dollar	19,137	5,571	213	24,921	1,246	(1,246)
Australian Dollar	20,956	1,063	–	22,019	1,101	(1,101)
Norwegian Krone	5,463	31	–	5,494	275	(275)
European Euro	3,090	69	30	3,189	159	(159)
Hong Kong Dollar	–	1	–	1	–	–
Swiss Franc	–	1	–	1	–	–
Brazilian Real	–	9	–	9	–	–
	93,091	7,797	(590)	100,298	5,014	(5,014)

30 June 2017	Investments £'000	Cash £'000	Net current assets £'000	Total £'000	Sensitivity Impact +5% £'000	Sensitivity Impact -5% £'000
Canadian Dollar	34,113	229	277	34,619	1,731	(1,731)
US Dollar	27,248	71	713	28,032	1,402	(1,402)
Australian Dollar	16,408	426	375	17,209	860	(860)
Norwegian Krone	4,371	31	–	4,402	220	(220)
European Euro	2,902	230	31	3,163	158	(158)
Hong Kong Dollar	–	6	1,035	1,041	52	(52)
Swedish Krone	–	–	–	–	–	–
Swiss Franc	–	1	–	1	–	–
Brazilian Real	–	7	–	7	–	–
	85,042	1,001	2,431	88,474	4,423	(4,423)

If the value of the currencies had strengthened against the pound in the portfolio by 5 per cent, the impact on the profit or loss and the net asset value would have been positive £5.0 million (2017: positive £4.4 million). If the value of sterling had strengthened by the same amount the effect would have been equal and opposite. The calculations are based on the portfolio valuation, cash balances and net current assets/(liabilities) as at the respective balance sheet dates and are not representative of the year as a whole, and may not be reflective of future market conditions.

5% sensitivity has been selected as this level of change is considered to be reasonable based on observations of current market conditions.

The Investment Manager does not intend to hedge the Company's foreign currency exposure at the present time.

Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Company. The Investment Manager has in place a monitoring procedure in respect of counterparty risk which is reviewed on an ongoing basis. The carrying amounts of financial assets best represents the maximum credit risk exposure at the balance sheet date.

At the reporting date, the Company's financial assets exposed to credit risk amounted to the following:

	2018 £'000	2017 £'000
Fixed interest investments	**21,358**	22,649
Cash and cash equivalents	**7,722**	7,371
Balances due from brokers	**–**	2,098
Interest, dividends and other receivables	**681**	929
	29,761	33,047

Credit risk on fixed interest investments is considered to be part of market price risk. As at 30 June 2018 and as at 27 September 2018 there were no debtors that were past due.

Credit risk arising on transactions with brokers relates to transactions awaiting settlement. Risk relating to unsettled transactions is considered to be small due to the short settlement period involved and the high credit quality of the brokers used. The Board monitors the quality of service provided by the brokers used to further mitigate this risk.

The cash held by the Company and all the assets of the Company which are traded on a recognised exchange are held by HSBC Bank, the Company's custodian. Bankruptcy or insolvency of the custodian may cause the Company's rights with respect to securities held by the custodian to be delayed or limited. The Board monitors the Company's risk by reviewing the custodian's internal control reports. Should the credit quality or the financial position of HSBC Bank deteriorate significantly the Investment Manager will move the cash holdings to another bank.

There were no significant concentrations of credit risk to counterparties as at 30 June 2018 and as at 30 June 2017. No individual investment exceeded 16.4 per cent of net assets as at 30 June 2018 (2017: 17.1 per cent).

As at 30 June 2018, for equity investments representing >1% of the total investments, the Company held 3 per cent or more of issued share capital of the following companies:

	Value per CQS £	Percentage held
Ascendant Resources	7,280,000	16.43%
REA Holdings 9% 31/12/49	6,283,000	6.15%

Liquidity risk

The Company's liquidity risk is managed on an ongoing basis by the Investment Manager in accordance with policies and procedures in place as described in the Directors' Report. The Company's overall liquidity risks are monitored on a quarterly basis by the Board.

The Company maintains sufficient cash and readily realisable securities to pay accounts payable and accrued expenses.

The contractual maturities of the financial liabilities at each Balance Sheet date, based on the earliest date on which payment can be required, were as follows:

30 June 2018	Three months or less £'000	More than three months but less than one year £'000	More than one year £'000	Total £'000
Current liabilities	1,850	163	–	2,013
Short-term liabilities – CULS	34,593	–	–	34,593
	36,443	163	–	36,606

30 June 2017	Three months or less £'000	More than three months but less than one year £'000	More than one year £'000	Total £'000
Current liabilities	564	163	–	727
Long-term liabilities – CULS	–	–	33,824	33,824
	564	163	33,824	34,551

17 Related Party Transactions

The following are considered related parties: the Board of Directors ('the Board') and CQS/New City Investment Managers ('the Investment Manager').

As at 30 June 2018, the Company held shares in New City Energy Ltd and Golden Prospect Precious Metals Ltd, these two investment companies are also managed by the Investment Manager.

Details of the fee arrangement with the Investment Manager is included within the Directors' Report under the heading Management and Management Fees and is disclosed in note 3.

There are no other transactions with the Board other than aggregated remuneration for services as Directors as disclosed in the Directors' Remuneration Report on pages 24 and 25, and as set out in the note 4 to the accounts. The beneficial interests of the Directors in the ordinary shares of the Company and in the 3.5% Convertible Unsecured Loan Stock 2018 are disclosed on page 25.

The balance due to Directors for fees at the year end was £Nil (2017: £Nil).

18 Post Balance Sheet Events

On 20 September 2018 the Company entered into a £20 million unsecured revolving credit facility with Scotia Bank. The facility has a two year term and the interest rate is base rate plus 1.05% per annum.

On 30 September 2018 the Company repaid £34,509,566 nominal of 3.5% Cumulative Unsecured Loan Stock 2018 ("CULS")

On 2 October 2018 the Company issued 398 ordinary shares of 25p each in connection with the exercise of conversion rights by holders of £1,508 nominal of CULS.

On 18 October 2018 the Company announced an annual dividend target of 5.60 pence per share for its 2018/19 financial year. A first interim dividend of 1.26 pence per share (2017: 0.86 pence per share) was announced on the same date.

Glossary of Terms and Definitions

Gearing	Total assets (as below) less all cash (including UK Treasury Stock) divided by shareholders' funds.
Asset Cover	The value of a company's net assets available to repay a certain security. Asset cover is usually expressed as a multiple and calculated by dividing the net assets available by the amount required to repay the specific security.
Discount/Premium	The amount by which the market price per share of an investment trust is lower or higher than the net asset value per share. The discount or premium is normally expressed as a percentage of the net asset value per share.
Dividend Cover	Earnings per share (per the revenue column) divided by dividends per share expressed as a ratio.
Dividend Yield	The annual dividend expressed as a percentage of the share price.
Net Asset Value or NAV	The value of total assets less liabilities. Liabilities for this purpose included current and long-term liabilities. To calculate the net asset value per Ordinary share the net asset value is divided by the number of shares in issue.
Ongoing Charges Ratio	A measure of all operating costs incurred in the reporting period, calculated as a percentage of average net assets in that year. Operating costs exclude costs suffered within underlying investee funds, costs of buying and selling investments, interest costs, taxation and the costs of buying back or issuing ordinary shares.
Price/Earnings Ratio	The ratio is calculated by dividing the middle-market price per share by the earnings per share. The calculation assumes no change in earnings but in practice the multiple reflects the stock market's view of a company's prospects and profit growth potential.
Prior Charges	The name given to all borrowings including debentures, loan and short term loans and overdrafts that are to be used for investment purposes, reciprocal foreign currency loans, currency facilities to the extent that they are drawn down, index-linked securities, and all types of preference or preferred capital and the income shares of split capital trusts, irrespective of the time until repayment.
Redemption Yield	The measure of the annualised total return on the current price of a security up to the date of its repayment. The calculation is based on aggregated income and capital returns, no account being taken of taxation.
Total Assets	Total assets less current liabilities (excluding prior charges as defined above).
Total Return	Total return involves reinvesting the net dividend in the month that the share price goes xd. The NAV total return involves investing the same net dividend in the NAV of the trust on the date to which that dividend was earned, eg quarter end, half year or year end date.

Notice of Annual General Meeting

Notice is hereby given that the 23rd Annual General Meeting of City Natural Resources High Yield Trust plc will be held at One Fleet Place, London EC4M 7WS on 4 December 2018 at 11.00am to consider the following resolutions:

Ordinary Business

As ordinary business, to consider and, if thought fit, pass the following resolutions which will be proposed as Ordinary Resolutions:

1. To receive and adopt the Directors' report and financial statements for the year ended 30 June 2018, together with the auditor's report thereon.
2. To approve the Directors' Remuneration Policy.
3. To approve the Directors' Remuneration Report for the year ended 30 June 2018.
4. To approve the Company's Dividend Policy.
5. To re-elect Mr R Ö Prickett, who retires annually, as a Director.
6. To re-elect Mrs C Cable, who retires annually, as a Director.
7. To re-elect Mr C M Casey, who retires annually, as a Director.
8. To re-elect Mr A G Evans, who retires annually, as a Director.
9. To re-elect Mrs H F Green, who retires annually, as a Director.
10. To re-appoint BDO LLP as Independent Auditor of the Company and to authorise the Directors to determine their remuneration.

Special Business

As special business, to consider and if thought fit, pass the following resolutions, which will be proposed as Ordinary Resolutions:

11. That the Company continues as an investment trust pursuant to the undertaking given by the Board in 2003.
12. That the Company change its name to CQS Natural Resources Growth and Income plc.
13. That, in substitution for any existing authority, but without prejudice to the exercise of any such authorisation prior to the date of this resolution, the Directors of the Company be and they are hereby generally and unconditionally authorised, in accordance with Section 551 of the Companies Act 2006 ("the Act"), to allot shares in the Company and to grant rights to subscribe for or to convert any security into shares in the Company (together being "relevant securities"), up to an aggregate nominal amount of £1,670,540, such authorisation to expire at the conclusion of the next annual general meeting of the Company to be held in 2019, unless previously revoked, varied or renewed by the Company in general meeting, save that the Company may, at any time prior to the expiry of such authorisation, make an offer or enter into an agreement which would or might require relevant securities to be allotted or granted after the expiry of such authority and the Directors of the Company may allot or grant relevant securities in pursuance of such an offer or agreement as if such authorisation had not expired.

As special business, to consider and if thought fit, pass the following resolutions which will be proposed as Special Resolutions:

14. That, subject to the passing of resolution 13 above, and in substitution for any existing power but without prejudice to the exercise of any such power prior to the date of this resolution, the Directors of the Company be and they are hereby empowered, in accordance with Sections 570 and 573 of the Companies Act 2006 (the 'Act'), to allot equity securities (as defined in Section 560 of the Act) either pursuant to the authorisation under Section 551 of the Act conferred on the Directors of the Company by such resolution numbered 13, or by way of a sale of treasury shares, in each case for cash, as if Section 561(1) of the Act did not apply to any such allotment:

    (i) other than pursuant to sub-paragraph (ii) below, up to an aggregate nominal amount of £834,434 (representing approximately 4.99 per cent of the present issued share capital of the Company); or

    (ii) in connection with an offer of equity securities open for acceptance for a period fixed by the Directors of the Company to the holders of ordinary shares in the share capital of the Company on a fixed record date in proportion (or as nearly as practicable) to their respective holdings of ordinary shares (but subject to such exclusions or other arrangements as the Directors of the Company may consider necessary or expedient to deal with any legal problems under or resulting from the application or apparent application of the laws of any territory or the requirements of any regulatory body or any stock exchange in any territory or in connection with fractional entitlements or otherwise howsoever);

    such power to expire at the conclusion of the next annual general meeting of the Company to be held in 2019 unless previously revoked, varied or renewed by the Company in general meeting, save that the Company may, at any time prior to the expiry of such power, make an offer or enter into an agreement which would or might require equity securities to be allotted after the expiry of such power and the Directors of the Company may allot equity securities in pursuance of such an offer or agreement as if such power had not expired.

15. That, in substitution for any existing authority but without prejudice to the exercise of any such authority prior to the date of this resolution, the Company be and is hereby authorised in accordance with Section 701 of the Companies Act 2006 (the "Act") to make market purchases (within the meaning of Section 693 of the Act) of ordinary shares of 25p each in the capital of the Company and to cancel or hold in treasury such shares provided that:

    (i) the maximum number of ordinary shares hereby authorised to be purchased shall be 14.99 per cent of the issued share capital of the Company as at the date of the passing of this resolution;

    (ii) the minimum price which may be paid for an ordinary share is 25p;

(iii) the maximum price (exclusive of expenses) which may be paid for an ordinary share shall not be more than the higher of (i) 5 per cent above the average of the middle market quotations for an ordinary share on the London Stock Exchange Daily Official List for the five business days immediately preceding the date on which any such purchase is made and (ii) the higher of the last independent trade and the highest current bid on the London Stock Exchange;

(iv) the authority hereby conferred shall expire on 31 December 2019 or, if earlier, at the conclusion of the Annual General Meeting of the Company to be held in 2019 unless such authority is renewed, varied or revoked by the Company in general meeting prior to such time; and

(v) the Company may make a contract to purchase ordinary shares under the authority hereby conferred prior to the expiry of such authority which will or may be executed wholly or partly after the expiration of such authority and may make a purchase of ordinary shares pursuant to any such contract.

16. That, a general meeting other than an Annual General Meeting may be called on not less than 14 clear days' notice.

Maitland Administration Services (Scotland) Limited
Secretary
20 Forth Street
Edinburgh EH1 3LH

24 October 2018

Notes

1. Information about this meeting is available from the Investment Manager's website; www.ncim.co.uk

2. A member entitled to attend and vote at the above meeting is entitled to appoint one or more proxies to exercise all or any of their rights to attend, speak and vote at the meeting. A proxy need not be a member of the Company . You may appoint more than one proxy provided each proxy is appointed to exercise rights attached to different shares. You may not appoint more than one proxy to exercise the rights attached to any one share.

3. A form of proxy is enclosed for use at the above meeting. Completion and return of the form of proxy will not prevent a member from attending the meeting and voting in person. To be effective, the form of proxy, duly executed, must be lodged at the address shown on the form of proxy not later than 48 hours before the time of the meeting.

4. The right to vote at the meeting is determined by reference to the Company's register of Members as at 6.30 pm on 2 December 2018. Changes to entries on the register after that time should be disregarded in determining the rights of any member to attend and vote at the meeting.

5. As at 9.00 am on 24 October 2018, the Company's issued share capital comprised 66,888,509 ordinary shares of 25 pence each. Each ordinary share carries the right to one vote at a general meeting of the Company, and therefore, the total number of voting rights in the Company as at 9.00 am on 24 October 2018 is 66,888,509.

6. As a member, you have the right to put questions at the meeting relating to the business being dealt with at the meeting.

7. Any person to whom this notice is sent who is a person nominated under section 146 of the Companies Act 2006 to enjoy information rights (a "Nominated Person") may, under an agreement between them and the member by whom they were nominated, have a right to be appointed (or to have someone else appointed) as a proxy for the meeting. If a Nominated Person has no such proxy appointment right or does not wish to exercise it, they may, under any such agreement, have a right to give instructions to the member as to the exercise of voting rights.

8. The statement of the rights of members in relation to the appointment of proxies in notes 2 and 3 above does not apply to Nominated Persons. The rights described in these paragraphs can only be exercised by members of the Company.

9. CREST members who wish to appoint a proxy or proxies by utilising the CREST electronic proxy appointment service may do so for the meeting and any adjournment(s) thereof by utilising the procedures described in the CREST Manual which can be viewed at www.euroclear.com. CREST personal members or other CREST sponsored members, and those CREST members who have appointed a voting service provider(s), should refer to their CREST sponsor or voting service provider(s), who will be able to take the appropriate action on their behalf.

10. In order for a proxy appointment made by means of CREST to be valid, the appropriate CREST message (a "CREST Proxy Instruction") must be properly authenticated in accordance with Euroclear UK & Ireland Limited's ("EUI") specifications and must contain the information required for such instructions, as described in the CREST Manual. The message must be transmitted so as to be received by the issuer's agent (ID-RA19) by the latest time for the receipt of proxy appointments specified in note 3 above. For this purpose, the time of receipt will be taken to be the time (as determined by the timestamp applied to the message by the CREST Applications Host) from which the issuer's agent is able to retrieve the message by enquiry to CREST in the manner prescribed by CREST.

11. CREST members and, where applicable, their CREST sponsors or voting service providers should note that EUI does not make available special procedures in CREST for any particular messages. Normal system timings and limitations will therefore apply in relation to the input of CREST Proxy Instructions. It is the responsibility of the CREST member concerned to take (or, if the CREST member is a CREST personal member or sponsored member or has appointed a voting service provider(s), to procure that his CREST sponsor or voting service provider(s) take(s)) such action as shall be necessary to ensure that a message is transmitted by means of the CREST system by any particular time. In this connection, CREST members and, where applicable, their CREST sponsors or voting service providers are referred, in particular, to those sections of the CREST Manual concerning practical limitations of the CREST system and timings.

12. The Company may treat as invalid a CREST Proxy Instruction in the circumstances set out in Regulation 35(5)(a) of the Uncertificated Securities Regulations 2001 (as amended).

13. No Director has a service contract with the Company but copies of Directors' letters of appointment will be available for inspection for at least 15 minutes prior to the meeting and during the meeting.

14. Under section 338 of the Companies Act 2006, members may require the Company to give, to members of the Company entitled to receive this notice of meeting, notice of a resolution which may properly be moved and is intended to be moved at the meeting. Under Section 338A of that Act, members may request the Company to include in the business to be dealt with at the meeting any matter (other than a proposed resolution) which may properly be included in the business.

15. It is possible that, pursuant to requests made by members of the Company under Section 527 of the Companies Act 2006, the Company may be required to publish on a website a statement setting out any matter relating to: (i) the audit of the Company's accounts (including the auditor's report and the conduct of the audit) that are to be laid before the meeting: or (ii) any circumstances connected with an auditor of the Company ceasing to hold office since the previous meeting at which annual accounts and reports were laid in accordance with Section 437 of the Companies Act 2006. The Company may not require the members requesting any such website publication to pay its expenses in complying with Sections 527 or 528 of the Companies Act 2006. Where the Company is required to place a statement on a website under Section 527 of the Companies Act 2006, it must forward the statement to the Company's auditor not later than the time when it makes the statement available on the website. The business which may be dealt with at the meeting includes any statement that the Company has been required under Section 527 of the Companies Act 2006 to publish on a website.

16. In accordance with Section 311A of the Companies Act 2006, the contents of this notice of meeting, details of the total number of shares in respect of which members are entitled to exercise voting rights at the AGM and, if applicable, any members' statements, members' resolutions or members' matters of business received by the Company after the date of this notice will be available on the Company's website www.ncim.co.uk.

17. You may not use any electronic address provided either in this Notice of Meeting or any related documents (including the Form of Proxy) to communicate with the Company for any purposes other than those expressly stated.

Report from CQS (UK) LLP Relating to Matters under the Alternative Investment Fund Managers' Directive (unaudited)

City Natural Resources High Yield Trust plc

For the year ended 30 June 2018

Risk management systems

CQS (UK) LLP ("the Investment Manager") employs risk management disciplines which monitor the Company's portfolio and to quantify and manage the associated market and other risks. A permanent independent department has been established by the Investment Manager to perform the risk management function. The risk management and performance analysis team ("RMPA") is led by the Chief Risk Officer and is functionally and hierarchically separate from the operating units of the portfolio managers of the Company.

RMPA is a dedicated control function over the operating units of the Investment Manager and is not involved in the performance activities of the Company. RMPA has designed, documented and implemented effective risk management policies, processes and procedures in order to identify, quantify, analyse, monitor, report on and manage all material risks relevant to the Company's investment strategy. The systems include third party vendor applications such as Tradar, Sungard Front Arena and MSCI Risk Metrics, complemented with a number of proprietary applications.

Material changes to information required to be made available to investors of the Company

There have been no material changes to be disclosed during the year to 30 June 2018.

Assets of the Company subject to special arrangements arising from their illiquid nature

There are no assets of the Company which are subject to special arrangements arising from their illiquid nature.

Alternative Investment Fund Managers (AIFM) Directive – Leverage

For the purposes of the AIFM Directive, leverage is any method which increases the Company's exposure, including the borrowing of cash and the use of derivatives. It is expressed as a percentage of the Company's exposure to its net asset value and is calculated on a gross and commitment method. Under the gross method, exposure represents the sum of the Company's positions after deduction of cash balances, without taking account of any hedging or netting arrangements. Under the commitment method, exposure is calculated without the deduction of cash balances and after certain hedging and netting positions is offset against each other. The leverage limits are set by the AIFM and approved by the Board. The AIFM is also required to comply with the gearing parameters set by the Board in relation to borrowings. The Company's maximum limits and actual leverage levels are shown below:

Leverage exposure	Gross method	Commitment method
Maximum limit (AIFM)	200%	200%
Maximum limit (Board)	200%	200%
Actual at 30 June 2018	126%	129%

Remuneration

The AIFM has adopted a remuneration policy which meets the requirements of the Directive and has been in place for the current financial year of the Company. The variable remuneration period of the AIFM ended on 30 September 2017 and therefore does not coincide with the financial year of the Company.

The remuneration process is overseen by the remuneration committee (comprised predominately of independent non-executive parties). An internal working group encompassing senior management is responsible for gathering relevant information (both quantitative and qualitative) to evaluate the performance (both short and long term) of individuals, teams and the AIFM as a whole, against external market benchmarks and to utilise this to develop proposals for fixed and variable remuneration for all staff. The remuneration committee receives these proposals and the supporting information and is responsible for independently reviewing and scrutinising the proposals and evidence provided in line with the AIFM's stated objectives and developing its final recommendations for delivery to the governing body of the AIFM and other entities associated with the AIFM.

The variable remuneration of all staff in excess of a threshold, which includes those individuals categorised as remuneration code staff ("code staff"), is subject to the following:

- deferred payment of up to 50% of the variable remuneration for a period of 3 years,
- deferred remuneration is linked to funds managed by the AIFM ,
- the breaching of certain covenants may lead to forfeiture of deferred remuneration, and
- a claw-back provision of deferred remuneration in certain circumstances including future performance issues by the individuals.

The below information provides the total remuneration paid by the AIFM during the year to 30 September 2017. This has been presented in line with the information available to the Company. There is no allocation made by the AIFM to each AIF and as such the disclosure reflects the remuneration paid to individuals who are partly or fully involved in the AIF.

Of the total remuneration paid of $92.5m for the year ended 30 September 2017 to 2017 individuals (full time equivalent), $26.1m has been paid as fixed remuneration determined based upon the FCA guidance with the remainder being paid as variable remuneration.

The AIFM has assessed the members of staff whom it determines to be code staff in line with AIFMD as reflected in SYSC 19b.3.4R. Senior management and staff engaged in the control functions are identified based upon their roles and responsibilities within the AIFM. With respect to investment professionals, in determining whether such staff are code staff, due consideration is taken of the allocated capital and trading limits that apply to the Fund managed and whether the individuals report into and seek consent for investment decisions from others who are themselves code staff. There are 13 individuals (full time equivalent) who meet this definition and these individuals have collectively been compensated $25.4m.

Not all individuals are directly remunerated by the AIFM due to the structure of the AIFM entity, however in the interests of meeting the underlying requirement of this disclosure all staff involved have been assessed as if directly remunerated by the AIFM.
